CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board (the "Board") of directors (the "Director") of Kinetix Systems Holdings Limited (the "Company"), I am pleased to present to you the annual report of the Company and its subsidiaries (collectively, the "Group") for the year ended 31 December 2019 ("FY2019").

Established in 1998, we are currently a well-established and traditional information technology ("IT") services provider with business portfolio including provision of IT infrastructure solutions services, IT development solutions services, and IT maintenance and support services, with approximately 21 years of experience in the IT consulting services industry in Hong Kong. The Group provided IT services to both private and public sectors and our customers include government and statutory bodies, banks and financial institutions, technology, media, and telecom companies, and transportation & logistic companies, etc.

Faced with the negative business sentiment of recent global economic uncertainty caused by US-China trade dispute, Hong Kong protests, and unfavorable volatility in Hong Kong stock market, we continue to demonstrate a consistent and solid track record in achieving stable sales growth by implementing clear strategies to balance short-term results and long-term goals. The Group has achieved steady business growth in sales performance in this year. During FY2019, the Group recorded (i) revenue of approximately HK\$215.6 million, an increase of approximately 11.4%; and (ii) gross profit of approximately HK\$37.3 million, a decrease of approximately 13.1%, as compared with the year ended 31 December 2018 ("FY2018"). The Group recorded a consolidated net profit attributable to shareholders of the Company of HK\$2.2 million for FY2019.

The Group believes that the global and local economic uncertainties which may adversely affect our business and overall short-term performance in the foreseeable future. The Group will be cautious in managing the business risk; be prepared to respond to changes in such business environment, and aim to strategically develop the Group's business to mitigate these impacts. The Group will carefully plan and formulate strategies to manage these factors with the aim to deliver the best possible results to our shareholders.

On behalf of the Board, I would like to express our sincere gratitude to our shareholders, bankers, customers and business partners for their support and trust placed in us. I would also like to thank our staff for their tremendous effort and contribution. With our competent management and professional teams, I believe the Group will succeed in achieving our business goals.

Yours sincerely,

Kinetix Systems Holdings Limited

MANAGEMENT DISCUSSION AND ANALYSIS

Established in 1998, we are currently a well-established IT services provider with business portfolio including provision of IT infrastructure solutions services, IT development solutions services, and IT maintenance and support services, with approximately 21 years of experience in the IT consulting services industry in Hong Kong. Our principal businesses include IT infrastructure solutions services, IT development solutions services and IT maintenance and support services.

BUSINESS REVIEW

For FY2019, the Group recorded a profit attributable to equity shareholders of the Company of approximately HK\$2.2 million as compared to the loss attributable to equity shareholders of the Company of approximately HK\$9.0 million in FY2018. The increase in profit was mainly attributable to (i) decrease in the allowance for expected credit loss of customers by approximately HK\$7.8 million, (ii) decrease in the one-off incurrence of listing expenses by expenses by HK\$9.8 million, decrease in gross profit by HK\$5.6 million, and (iii) was partially offset by the increase in legal and professional fee by HK\$1.4 million during FY2019.

Provision of IT development solutions services

This segment provides IT development solutions services that generally include system analysis and design, software development and technology consultancy. The revenue generated from this segment in FY2019 amounted to approximately HK\$53.5 million, representing approximately 24.8% of the total revenue for FY2019. The revenue derived from this segment increased by approximately 14.6% from approximately HK\$46.7 million for FY2018 to approximately HK\$53.5 million for FY2019. The increase was primarily due to the increase in total numbers of IT development solutions projects undertaken in FY2019.

Provision of IT infrastructure solutions services

This segment provides IT infrastructure solutions services to our clients by advising them the hardware and/or software that their IT systems would require and procuring the relevant hardware and/or software from a number of authorized distributors or third party suppliers and integrating them with our clients' IT systems. The revenue generated from this segment in FY2019 amounted to approximately HK\$123.5 million, representing approximately 57.3% of the total revenue for FY2019. The revenue derived from this segment decreased by approximately 1.4% from approximately HK\$125.3 million for FY2018 to approximately HK\$123.5 million for FY2019. The decrease was mainly attributable to the decrease in average amount of revenue recognized per project in FY2019.

Provision of IT maintenance and support services

This segment provides IT maintenance and support services. The revenue generated from this segment in FY2019 amounted to approximately HK\$28.6 million, representing approximately 13.3% of the total revenue for FY2019. The revenue derived from this segment increased by approximately 33.0% from approximately HK\$21.5 million for FY2018 to approximately HK\$28.6 million for FY2019. The increase was primarily due to the increase in average amount of revenue recognized per project during FY2019.

MANAGEMENT DISCUSSION AND ANALYSIS

Others

In line with the development of the Company, some subsidiaries were established in the fourth quarter of 2019. One of the subsidiaries plans to develop an E-Commerce business which includes trading of entertainment products. The revenue generated for this segment amounted to approximately HK\$10.0 million, representing approximately 4.6% of the total revenue for FY2019.

BUSINESS OBJECTIVES AND USE OF PROCEEDS

By leveraging on the Group's current sales network, its services, technology, and customers recognition, the Group intends to continue with our business strategies and the implementation plan as set out in the prospectus of the Company dated 30 June 2018 (the "Prospectus"). The plan includes:

- (1) developing IT solutions services tailored for finance and insurance sectors
- (2) expanding the application of ERP system in our IT development solutions services
- (3) maintaining fund for performance bond and contract deposit
- (4) provision of cloud computing and IoT products
- (5) developing technical support centre to enhance our service quality
- (6) strengthening our marketing efforts
- (7) enhancing the expertise of our professional team
- (8) enhancing the Group's management information system

The Shares were listed on the GEM of the Stock Exchange on 16 July 2018 (the "Listing Date"). An analysis comparing the business objectives as set out in the Prospectus with the Group's actual business progress for the period from the Listing Date to 31 December 2019 are set out below:

MANAGEMENT DISCUSSION AND ANALYSIS

The bases and assumptions (including commercial assumptions) in support of our assessment. The actual net proceeds of the Group raised from the initial public offering was approximately HK\$34.1 million, after deducting the underwriting fees, commissions and other listing expenses. Up to 31 December 2019, the Group has utilised proceeds from the listing of approximately HK\$3.1 million and a summary of use of proceeds are set out in the table below:

	As set out in the Prospectus	Amount expected to be used up to 31 December 2019	Amount actually used up to 31 December 2019
	HK\$'million	HK\$'million	HK\$'million

Total	34.10	8.21	3.12

The remaining net proceeds are intended to be applied in accordance with the proposed application set forth in the Prospectus.

MAJOR RISKS AND UNCERTAINTIES

The Group believes that the risk management practices are important and use its best effort to ensure it is sufficient to mitigate the risks present in our operations and financial position as efficiently and effectively as possible. The followings are the major risks and uncertainties of our business:

- (1) We rely on a supplier's hardware and software for our provision of IT infrastructure and development solutions services, and any shortage or delay in the supply of hardware and software from its authorised distributors or any deterioration of business relationship with that supplier and/or its authorised distributor(s) may materially and adversely affect our results of operations.

MANAGEMENT DISCUSSION AND ANALYSIS

- (2) Our operations may be affected by concentrating on a few key suppliers. Should there be any loss of key suppliers or disruption in their supply, our business and results of operations could be materially and adversely affected.
- (3) Our Group is exposed to credit risk of our clients.
- (4) We may encounter cost overruns or delays in our IT infrastructure and development solutions projects and our business, financial position and results of operation may be materially and adversely affected.
- (5) We are unable to control the quality of the hardware and/or software provided by our suppliers. Should the products provided by our suppliers be defective or fail to meet the required standards, our business and reputation may be adversely affected.
- (6) Part of our works are subcontracted to subcontractors. Our operations and financial results may be adversely affected by any delay or defects in their work.
- (7) It may be difficult for us to maintain our high business partnership rankings with the IT products vendors and distributors.
- (8) Our current standing offer agreement with the Hong Kong Government will expire in July 2021. There is no assurance that we will continue to provide quality professional services as an approved contractor of the Hong Kong Government and its statutory bodies.
- (9) It may be difficult for us to recruit, train and retain capable and experienced sales staff and highly skilled technical staff. If there is any shortfall in our workforce or increase in labour cost, our business operations may be materially impeded and our financial results may be adversely affected.
- (10) Our business may be adversely affected if we fail to retain certain key executives and senior management or find suitable replacements since our performance relies heavily on them.
- (11) We are exposed to potential liabilities for damages as a result of our negligent acts or omissions in our services.
- (12) We may be vicariously liable for the acts or omissions of our staff and face claims or legal actions brought by our clients for damages as a result of the negligent conduct or fault of our staff.
- (13) During the implementation of IT infrastructure and development solutions projects, we may record net cash outflows. If we take up too many significant projects in the future, we may not have sufficient working capital, which may affect our financial position.
- (14) The project basis of our IT projects create uncertainty as to our future revenue streams.
- (15) Our business and our financial performance may be adversely affected by any infringement of our intellectual property rights or any infringement by us of the intellectual property rights of others, in particular our clients.

MANAGEMENT DISCUSSION AND ANALYSIS

- (16) There may be adverse impact on our reputation and business operations in the event of leakage or misappropriation of confidential information handled by us.
- (17) Our success hinges on our ability to keep pace with the rapid changes in IT technology and to provide innovative solutions, services and products in response to rapidly evolving market demand. Our business, financial conditions and result of operations may be adversely impacted if we fail to do so.
- (18) We are subject to various risks relating to the development of cloud computing and IoT solutions.
- (19) We may not be able to successfully implement our strategies, or achieve our business objectives.
- (20) We may not be adequately insured against losses and liabilities arising from our operations.
- (21) We have not registered the tenancy agreement in respect of the lease of the premises in Kwun Tong.

For other risks and uncertainties facing the Group, please refer to the section headed “Risks Factors” in the Prospectus. An analysis of the Group’s financial risk management (included foreign currency risk, credit risk, liquidity risk and interest rate risk) objectives and policies are provided in Note 33 to the consolidated financial statements.

Our risk management activities are performed by management on an ongoing process. The effectiveness of our risk management framework will be evaluated at least annually, and periodic management meeting is held to update the progress of risk monitoring efforts. Management is committed to ensure that risk management forms part of the daily business operation processes in order to align risk management with corporate goals in an effective manner.

The Company will continue to engage external independent professionals to review the Group’s system of internal controls and risk management annually and further enhance the Group’s internal control and risk management systems as appropriate.

There is currently no internal audit function within the Group. The Board has reviewed the need for an internal audit function and are of the view that in light of the size, nature and complexity of the business of the Group, it would be more cost effective to appoint external independent professionals to perform internal audit function for the Group in order to meet its needs. Nevertheless, the Board will continue to review at least annually the need for an internal audit function.

OUTLOOK AND PROSPECTS

Looking forward, the Group considers the global business environment will become more challenging. The Group will continue to face various risks and uncertainties including the volatility of Hong Kong interest rates, the risk of US-China trade war, and global outbreak of coronavirus disease that may adversely affect its business and overall short-term performance. It could lead to negative global economic impacts and the Group expects that Hong Kong’s economy will further deteriorate and worsen. It may result in the Group reducing orders and putting pressure on our pricing terms and our profitability in the short term. Therefore, the Group shall provide customers with specific IT solution services through its newly established subsidiaries, thereby expanding and diversifying its revenue sources. The Group will closely monitor the impact of the macro issues and trade dispute on our performance, and will carefully plan and develop strategies to manage these factors to provide the best possible results to shareholders in the medium to longer term.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Revenue

The Group's revenue for FY2019 amounted to approximately HK\$215.6 million, representing an increase of approximately HK\$22.1 million or 11.4% compared to FY2018 (2018: approximately HK\$193.5 million). The increase was mainly attributable to the increase in revenue generated from provision of IT development solutions services by approximately HK\$6.8 million; (ii) IT maintenance and support services projects by approximately HK\$7.1 million; and (iii) others by approximately HK\$10.0 million.

Gross profit and gross profit margin

The Group's gross profit for FY2019 amounted to approximately HK\$37.3 million, representing decrease of approximately HK\$5.6 million or 13.1% compared to FY2018 (2018: approximately HK\$42.9 million), and the decrease was mainly attributable to decrease in gross profit of IT development solutions services due to increase in direct labour cost; and the decrease in gross profit of IT maintenance and support services due to increase in direct labour cost and the cost of subcontractors during FY2019. The Group's gross profit margin decreased from approximately 22.2% for FY2018 to approximately 17.3% for FY2019 as the decrease was mainly attributable to the decrease in gross profit margin of IT development solutions services projects which was due to more staff cost required in certain projects in government sector; and decrease in gross profit margin of IT maintenance and support services project which was caused by a project associated with comparatively lower gross profit margin during FY2019.

Selling expenses

The Group's selling expenses for FY2019 amounted to approximately HK\$6.1 million, representing an increase of approximately HK\$0.7 million or 13.0% compared to FY2018 (2018: approximately HK\$5.4 million). Such increase was mainly attributed by the increase in sales commission which was in line with the increase in revenue in FY2019.

Administrative and general expenses

The Group's administrative expenses for FY2019 amounted to approximately HK\$28.0 million, representing an increase of approximately HK\$1.6 million or 6.1% compared to FY2018 (2018: approximately HK\$26.4 million). Such increase was mainly due to the increase in legal and professional fee by HK\$1.4 million.

Profit/(loss) and total comprehensive income/(loss) for the year

The Group increased profit for FY2019 by approximately HK\$10.6 million compared to loss of approximately HK\$9.0 million for FY2018. The profit was mainly attributable to (i) decrease in the allowance for expected credit loss of customers of the Group by approximately HK\$7.8 million, (ii) decrease in the one-off incurrence of listing expenses by approximately HK\$9.8 million, decrease in gross profit by HK\$5.6 million for FY2019 and was offset by increase in legal and professional fee by HK\$1.4 million.

FINANCIAL POSITION

Liquidity and financial resources

We maintained a healthy liquidity position, with working capital financed primarily through cash generated from our operating activities during FY2019, and our use of cash primarily relates to operating activities and purchase of property, plant and equipment. During FY2019, we did not have any bank borrowings. As at 31 December 2019, we had cash and cash equivalents of approximately HK\$60.0 million (31 December 2018: approximately HK\$63.4 million), which were cash at banks and in hand. The Group did not have any credit facilities from

MANAGEMENT DISCUSSION AND ANALYSIS

banks as at 31 December 2018 and 31 December 2019, respectively. The Group's gearing ratio, which is calculated by total debt (defined as bank and other debts incurred not in the ordinary course of business) divided by total equity, was nil as at 31 December 2019. Our liquidity position has further been strengthened by using the cash generated from our operating activities and fund raising as a result of that the Shares were listed on the Stock Exchange on 16 July 2018. Going forward, we intend to use our capital for our operations and the expansion plans as stated in the Prospectus.

Treasury policies

The Group has adopted a prudent financial management approach towards its treasury policies and thus maintained a healthy liquidity position throughout FY2019. The Group strives to reduce exposure to credit risk by performing ongoing credit assessments and evaluations of the financial status of its customers. To manage liquidity risk, the Board closely monitors the Group's liquidity position to ensure that the liquidity structure of the Group's assets, liabilities and other commitments can meet its funding requirements from time to time.

Commitments

Our contract commitments involve leases of our office premises and director's quarter. As at 31 December 2019, the Group's operating lease commitments were nil (31 December 2018: approximately HK\$5.8 million).

Capital structure

As at 31 December 2019, the capital structure of the Company comprised issued share capital and reserves.

Capital Expenditure

Our capital expenditure for the FY2018 and FY2019 was HK\$2.3 million and approximately HK\$0.1 million respectively.

Dividend Policy

The Company has adopted a dividend policy ("Dividend Policy"), pursuant to which the Company may declare and distribute dividends to the shareholders of the Company, provided that the Group records a profit after tax and that the declaration and distribution of dividends does not affect the normal operations of the Group. The recommendation of the payment of any dividend is subject to the absolute discretion of the Board, and any declaration of final dividend will be subject to the approval of the Shareholders of the Company. In proposing any dividend payout, the Board shall also take into account, inter alia, the Group's operations, earnings, financial condition, cash requirements and availability, capital expenditure and future development requirements and other factors it may deem relevant at such time. Any payment of the dividend by the Company is also subject to any restrictions under the Companies Law of the Cayman Islands, the articles of association of the Company and the Shareholders.

The Dividend Policy will be reviewed from time to time and there is no assurance that a dividend will be proposed or declared in any specific period.

MANAGEMENT DISCUSSION AND ANALYSIS

EMPLOYEES AND REMUNERATION POLICIES

As at 31 December 2019, the Group had a total of 116 employees (31 December 2018: 85). Total staff costs (including key management personnel and directors' emoluments) were approximately HK\$38.0 million for FY2019, as compared to approximately HK\$35.3 million for FY2018. The increase in the number of employees for FY2019 was mainly attributable to the increase in the number of employees employed for the Group's development of Enterprise Resource Planning ("ERP") business.

Remuneration policy of the Group is reviewed regularly, making reference to legal framework, market condition and performance of the Group and individual staff (including directors of the Company). The remuneration policy and remuneration packages of the executive directors and members of the senior management of the Group are reviewed by the Remuneration Committee.

The Company has adopted a share option scheme as incentive to directors and eligible employees, details of the scheme are set out in the section headed "Share Option Scheme" below.

SHARE OPTION SCHEME

The share option scheme of the Company (the "Share Option Scheme") is a share incentive scheme prepared in accordance with Chapter 23 of the GEM Listing Rules. The Share Option Scheme was adopted on 22 June 2018. No options have been granted, exercised or cancelled, or agreed to be granted, under the Share Option Scheme from the date of its adoption to 31 December 2019 and up to the date of this report.

FOREIGN EXCHANGE EXPOSURE

Foreign currency risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group mainly operates in Hong Kong with most of the transactions denominated and settled in HK\$. During FY2019, the Group's exposure to foreign currency risk primarily arose from certain financial instruments including trade receivables, cash and cash equivalents and trade payables which are denominated in US\$ and EUR. During FY2019 and FY2018, the Group did not adopt any hedging strategy but the management continuously monitored the foreign exchange risk exposure on a case-by-case basis. The Group did not use any hedging contracts to engage in speculative activities during FY2019 and FY2018.

DONATION

During FY2019, the Group made donations for charitable purpose totaling approximately HK\$10,000 (2018: approximately HK\$13,000).

SIGNIFICANT INVESTMENTS

During FY2019, the Group did not hold any significant investment in equity interest in any other company.

FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

The Group has the capital commitment for equipment as at 31 December 2019 amounted to approximately HK\$1.6 million (2018: Nil).

MANAGEMENT DISCUSSION AND ANALYSIS

MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

During FY2019, the Group did not have any material acquisitions and disposals of subsidiaries, associates and joint ventures.

CHARGES ON GROUP ASSETS

As at 31 December 2019, there is no charge on assets of the Group.

CONTINGENT LIABILITIES

As at 31 December 2019, the Group had no other contingent liabilities except for Note 28 to the consolidated financial statements.

EVENT AFTER THE REPORTING PERIOD

Save as disclosed in Note 37 to the consolidated financial statements, there is no significant event subsequent to 31 December 2019.

CORPORATE GOVERNANCE PRACTICES

The Board recognises the importance of good corporate governance in management and internal control procedures so as to achieve accountability. Therefore, the Company is committed to establishing and maintaining good corporate governance practices and procedures. The Directors believe that good corporate governance provides a framework that is critical to effective management, successful business growth and a healthy corporate culture that will benefit the Company's stakeholders as a whole. The Directors will continue to review their corporate governance practices to enhance their corporate governance standard, comply with increasingly tightened regulatory requirements from time to time, and meet the growing expectations of the Shareholders and other stakeholders of the Company.

The Company has adopted the code provisions of the Corporate Governance Code (the "CG Code") as set out in Appendix 15 to the GEM Listing Rules and, in the opinion of the Board, the Company has complied with the CG Code for FY2019, save for the deviation from such code disclosed below.

The CG Code in Appendix 15 to the GEM Listing Rules provision A.2.1 provides that the roles of chairman and chief executive should be separate and should not be performed by the same individual. Mr. Yu Pak Lun Larry is the chairman and the chief executive officer of the Company. In view of Mr. Yu Pak Lun Larry is one of the co-founders of the Group and has been operating and managing the Group since 1998, the Board believes that it is in the best interest of the Group to have Mr. Yu Pak Lun Larry taking up both roles for effective management and business development. Therefore, the directors of the Company consider that the deviation from the CG Code provision A.2.1 is appropriate in such circumstance.

MANAGEMENT DISCUSSION AND ANALYSIS

Under the CG Code provision A.1.8, the Company should arrange appropriate insurance cover in respect of legal action against its Directors. Currently, the Company does not have insurance cover for legal action against its Directors. Every Director is, subject to the provisions of the applicable laws, indemnified out of the assets of the Company against all costs, charges, expenses, losses and liabilities he/she may sustain or incur in or about the execution of his/her office or otherwise in relation thereto pursuant to the Articles of Association of the Company. However, as the risk management and internal control systems of our Group is effective and constantly under review, and as all the executive Directors and management are familiar with the operation of the Group and the information technology industry, the Board believes that the risk of the Directors being sued or getting involved in litigation in their capacity as Directors is relatively low, and hence the Board is of the view that the benefits of the insurance may not outweigh the cost. Therefore, the Board considers that the Directors' exposure to risk is manageable. Save for the deviations as mentioned above, the Board is satisfied that the Company had complied with all the code provisions of the CG Code since the Listing Date up to the date of this report.

PURCHASE, REDEMPTION OR SALE OF LISTED SECURITIES OF THE COMPANY

Neither the Company, nor any of its subsidiaries purchased, redeemed or sold any of the Company's listed securities during FY2019.

ANNUAL GENERAL MEETING

Notice of the annual general meeting of the Company will be published and dispatched to the Company's shareholders in the manner required by the Listing Rules in due course.

AUDIT COMMITTEE

The Audit Committee has reviewed with management of the Group the accounting principles and practices adopted by the Group and discussed auditing, internal control and financial reporting matters including the review of the annual consolidated financial statements for FY2019, and is of the view that such statements have been prepared in compliance with the applicable accounting standards, the GEM Listing Rules and other applicable legal requirements, and that adequate disclosures have been made. There was no disagreement from the auditor of the Company or the Audit Committee in respect of the accounting policies adopted by the Company.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PRACTICES

The Directors believe that good corporate governance provides a framework for effective management, successful business growth and a healthy corporate culture, which will benefit the Company's stakeholders. Therefore, the importance of good corporate governance in management and internal control procedures is critical to achieving transparency and accountability. The Company has long been committed to the pursuit a high standard of corporate governance and has adopted and complied with the code provisions of the Corporate Governance Code (the "CG Code") as set out in Appendix 15 to the GEM Listing Rules and, the Board considers that the Company has complied with the CG Code for FY2019, except for the deviation as stated below.

Code Provision A.1.8

Under the CG Code provision A.1.8, the Company should arrange appropriate insurance cover in respect of legal action against its Directors. Currently, the Company does not have insurance cover for legal action against its Directors. Every Director is, subject to the provisions of the applicable laws, indemnified out of the assets of the Company against all costs, charges, expenses, losses and liabilities he/she may sustain or incur in or about the execution of his/her office or otherwise in relation thereto pursuant to the Articles of Association of the Company. However, as the risk management and internal control systems of our Group is effective and constantly under review, and as all the executive Directors and management are familiar with the operation of the Group and the information technology industry, the Board believes that the risk of the Directors being sued or getting involved in litigation in their capacity as Directors is relatively low, and hence the Board is of the view that the benefits of the insurance may not outweigh the cost. Therefore, the Board considers that the Directors' exposure to risk is manageable.

Code Provision A.2.1

Under the CG Code provision A.2.1, the roles of chairman and chief executive should be separate and should not be performed by the same individual. Mr. Yu Pak Lun Larry is the chairman and the chief executive officer of the Company. In view of Mr. Yu Pak Lun Larry is one of the co-founders of the Group and has been operating and managing the Group since 1998, the Board believes that it is in the best interest of the Group to have Mr. Yu Pak Lun Larry taking up both roles for effective management and business development. Therefore, the directors of the Company consider that the deviation from the CG Code provision A.2.1 is appropriate in such circumstance.

The Directors will continue to review their corporate governance practices to enhance their corporate governance standards. The Company will from time to time comply with increasingly stringent regulatory requirements and meet the growing expectations of our investors and regulators.

BOARD OF DIRECTORS

The Board is responsible for the overall management of the Group's business and the long-term success of the Company to ensure that it is managed in the best interests of the Company and delivery of sustainable value to the Shareholders.

The Board focuses on formulating the overall business strategy, reviewing and monitoring the business performance, internal controls and risk management of the Group, approving the consolidated financial statements and directing and supervising the management of the Company. Implementation of the strategies set by the Board is delegated to the management which is led by the chief executive officer of the Group. The management is responsible for the daily management and operation of the Group. The Board is provided with a management update report to regularly assess the performance of the Group, and recent development and prospects of the Group.

CORPORATE GOVERNANCE REPORT

Regarding the Company's corporate governance, the Board as a whole is responsible for performing the following corporate governance duties including:

- (i) to develop and review the Company's policies and practices on corporate governance and make recommendations;
- (ii) to review and monitor the training and continuous professional development of Directors and senior management;
- (iii) to review and monitor the Company's policies and practices in compliance with legal and regulatory requirements;
- (iv) to develop, review and monitor the code of conduct and compliance manual (if any) applicable to employee and Directors; and
- (v) to review the Company's compliance with the CG Code and disclosure in its corporate governance report.

All directors, including independent non-executive directors, bring valuable business experience, knowledge and professionalism to the Board to perform board functions effectively and efficiently. Independent non-executive directors are invited to serve on the company's audit committee, remuneration committee and nomination committee.

The Board delegates to the Audit Committee the responsibilities for the corporate governance functions including professional development of the Directors and the senior management, and reviewing the Company's compliance with the CG Code and disclosure in this Corporate Governance Report. The delegated functions and work tasks are periodically reviewed by the Board.

Composition of the Board

The composition of the Board as at the date of this annual report is set out as follows:

Executive Directors:-

Mr. Yu Pak Lun Larry
Mr. Wong Tsun Ho Ian (resigned on 1 October 2019)
Mr. Law Cheung Moon
Mr. Leung Patrick Cheong Yu

Independent non-executive Directors:-

Mr. Yeung Wai Keung
Mr. Lam Yau Hin
Mr. Cheung Wah Kit Jason (retired on 8 May 2019)
Ms. Lam Shun Ka (formerly known as Lam Yuk Shan) (appointed on 7 March 2019)

Biographical details of the Directors are set out in "Biographical Details of the Directors and Senior Management" on pages 6 to 8 of this annual report.

CORPORATE GOVERNANCE REPORT

In compliance with Rules 5.05A, 5.05(1) and (2) of the GEM Listing Rules, the Company has appointed three independent non-executive Directors representing not less than one-third of the Board and at least one of whom has appropriate professional qualifications, or accounting or related financial management expertise. The Company has received from each independent non-executive Director an annual confirmation of his/her independence, and the Company considers such Directors to be independent in accordance with Rule 5.09 of the GEM Listing Rules.

All Directors, including independent non-executive Directors, have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for its efficient and effective delivery of the Board functions. Independent non-executive Directors are invited to serve on the Audit Committee, the Remuneration Committee and the Nomination Committee of the Company.

To the best knowledge of the Board members, there are no other relationship (including financial, business, family, and other material/relevant relationships) among the members of the Board.

TERMS OF APPOINTMENT AND RE-ELECTION OF DIRECTORS

Each of the executive Directors has entered into a service agreement with the Company for a term of three years and shall continue thereafter until terminated by not less than three months' notice in writing served by either party on the other. The emolument of executive Directors was determined by the Remuneration Committee and approved by the Board by reference to the Company's operating results, his performance, seniority, experience, duties and responsibilities within the Group and comparable market statistics and shall be reviewed annually by the Remuneration Committee. Executive Directors may also receive a discretionary bonus in respect of each completed calendar year of service. The amount of such bonus will be determined by the Remuneration Committee and the Board.

Each of Mr. Yeung Wai Keung, Mr. Lam Yau Hin and Mr. Cheung Wah Kit Jason (retired on 8 May 2019) has entered into a letter of appointment with the Company for an initial term of three years commencing on the Listing Date until terminated by either party giving not less than three months' written notice to the other expiring at the end of the initial term of his appointment or any time thereafter. Ms. Lam Shun Ka has entered into a letter of appointment with the Company for an initial term of three years commencing on 7 March 2019 until terminated by either party giving not less than three months' written notice to the other expiring at the end of the initial term of her appointment or any time thereafter.

Save for directors' fees, none of the independent non-executive Directors is expected to receive any other remuneration for holding his/her office as an independent non-executive Director. The emolument of independent non-executive Directors was determined by the Remuneration Committee and approved by the Board by reference to the Company's operating results, his/her performance, seniority, experience, duties and responsibilities within the Group and comparable market statistics and shall be reviewed annually by the Remuneration Committee. The service contracts may be renewed in accordance with our articles of association and the applicable GEM Listing Rules.

According to our articles of association, one-third of the Directors for the time being (or, if their number is not a multiple of three (3), the number nearest to but not less than one-third) shall retire from office by rotation at every annual general meeting of the Company, provided that every Director shall be subject to re-election at annual general meeting at least once every three years. Any Director who is appointed by the Board to fill casual vacancy shall hold office until the first general meeting after his/her appointment, and be subject to re-election at such meeting and any Director appointed by the Board as an addition to the existing Board shall hold office only until the next following general meeting of the Company and shall then be eligible for re-election.

CORPORATE GOVERNANCE REPORT

PERMITTED INDEMNITY OF DIRECTORS

At no time during the year and up to the date of this report was any permitted indemnity provision being in force for the benefit of any of the Directors of the Company.

DIRECTORS' TRAINING AND PROFESSIONAL DEVELOPMENT

According to Code Provision A.6.5 of the CG Code, all Directors should participate in continuous professional development to develop and refresh their knowledge and skills. The Directors acknowledge the need to continue to develop and refresh their knowledge and skills for making contributions to the Company. Every newly appointed Director has received comprehensive induction on the first occasion of his/her appointment to ensure appropriate understanding of the business and operations of the Company and full awareness of Director's responsibilities and obligations under the Listing Rules and relevant statutory requirements.

All Directors understand the importance of continuous professional development and are committed to participating in any suitable training to develop and refresh their knowledge and skills. They have provided the Company with their respective training records pursuant to the CG Code.

BOARD COMMITTEE

The Board has established three Board committees, namely the Audit Committee, the Remuneration Committee and the Nomination Committee, for overseeing particular aspects of the Company's affairs. All Board committees have been established with defined written terms of reference, which are posted on the GEM's website www.hkgem.com and the Company's website at <http://www.kinetix.com.hk>. All the Board committees should report to the Board on their decisions or recommendations made.

The practices, procedures and arrangements in conducting meetings of Board committees follow in line with, so far as practicable, those of the Board meetings.

All Board committees are provided with sufficient resources to perform their duties and, upon reasonable request, are able to seek independent professional advice in appropriate circumstance, at the Company's expense.

Audit Committee

The chairman of the Audit Committee is Mr. Lam Yau Hin, an independent non-executive Director, and other members include Mr. Yeung Wai Keung, Mr. Cheung Wah Kit Jason (retired on 8 May 2019) and Ms. Lam Shun Ka (formerly known as Lam Yuk Shan) (appointed on 7 March 2019), each being an independent non-executive Director. The written terms of reference of the Audit Committee as suggested under the CG Code are posted on the GEM website and on the Company's website.

The main objective of the Audit Committee is to assist the Board in fulfilling its fiduciary responsibilities to the Company and each of its subsidiaries to act in the interest of the Shareholders as a whole.

CORPORATE GOVERNANCE REPORT

Its primary duties include: (a) to consider and make recommendations to the Board on the appointment, reappointment and removal of the external auditor, and to approve the remuneration and terms of engagement of the external auditor, and any questions of its resignation or dismissal; (b) to review and monitor the external auditor's independence and objectivity and the effectiveness of the audit process in accordance with applicable standards; (c) to discuss with the external auditor the nature and scope of the audit and reporting obligations before the audit commences; (d) to develop and implement policy on engaging an external auditor to supply non-audit services; (e) to make recommendations to the Board as it deems appropriate on any area within its remit where action or improvement is needed; and (f) to monitor integrity of the Company's financial statements and the annual report and accounts, half-year report and quarterly reports, and to review significant financial reporting judgements contained in them.

The Company has complied with Rule 5.28 of the GEM Listing Rules in that the Audit Committee must comprise a minimum of three members and must be chaired by an independent non-executive Director who possesses appropriate professional qualifications or accounting or related financial management expertise as required in Rule 5.05(2) of the GEM Listing Rules.

In addition to the five meetings held as set forth in the section headed "Number of Meetings and Directors' Attendance", the Audit Committee met the external auditor two times for the year ended 31 December 2019.

The Group's financial statements for the year ended 31 December 2019 have been reviewed by the Audit Committee. The Audit Committee is of the opinion that the consolidated financial statements of the Group for the year ended 31 December 2019 comply with the applicable accounting standards and the GEM Listing Rules.

The Audit Committee also performed the following:—

- reviewed and obtained an explanation from management and the external auditor for financial reporting matters, including the causes of changes from the previous accounting period, the effects on the application of new accounting policies, compliance with the GEM Listing Rules and relevant legislation, and any audit issues, before recommending their adoption by the Board;
- reviewed the Company's policies and practices on corporate governance, compliance with legal and regulatory requirements and the Code of Conduct, and made recommendations to the Board;
- reviewed and monitored the training and continuous professional development of Board members;
- reviewed the Company's compliance with the CG Code and disclosure in annual report on corporate governance and sustainable development;
- considered and proposed to the Board the re-appointment of Moore Stephens CPA Limited as the Company's external auditor and approved its terms of engagement;
- reviewed the procedures and guidelines for employing the external auditor to perform non-audit assignments for the Company, and approved the scopes and fees for non-audit assignments;
- received and reviewed the internal audit reports from the independent internal control consultant;

CORPORATE GOVERNANCE REPORT

- held meetings with the external auditor in the absence of management to discuss any material audit issues; and
- carried out reviews of the effectiveness of the Company's risk management and internal control systems including tax strategy, the structure of senior management, the adequacy of resources, staff qualifications and experience, training programs, and the Company's procedures for financial reporting and internal audit.

Remuneration Committee

The chairman of the Remuneration Committee is Mr. Yeung Wai Keung, an independent non-executive Director, and other members include Mr. Lam Yau Hin, Mr. Cheung Wah Kit Jason (retired on 8 May 2019) and Ms. Lam Shun Ka (formerly known as Lam Yuk Shan) (appointed on 7 March 2019), each being an independent non-executive Director and Mr. Yu Pak Lun Larry, our chairman and executive Director. The written terms of reference of the Remuneration Committee as suggested under the CG Code are posted on the GEM website and the Company's website.

The main functions of the Remuneration Committee include: (a) to make recommendations to the Board on the Company's policy and structure for all of the Directors' and senior management's remuneration and on the establishment of a formal and transparent procedure for developing remuneration policy; (b) to review and approve the management's remuneration proposals with reference to the Board's corporate goals and objectives; (c) to make recommendations to the Board on the remuneration packages of individual executive Directors and senior management; (d) to make recommendations to the Board on the remuneration of the independent non-executive Directors; (e) to consider salaries paid by comparable companies, time commitment and responsibilities and employment conditions elsewhere in the Group; (f) to review and approve compensation payable to the executive Directors and the senior management for any loss or termination of office or appointment to ensure that it is consistent with contractual terms and is otherwise fair and not excessive; and (g) to review and approve compensation arrangements relating to dismissal or removal of the Directors for misconduct to ensure they are consistent with contractual terms and are otherwise reasonable and appropriate.

Regarding Directors' remuneration and the five highest paid employees as required to be disclosed pursuant to the GEM Listing Rules are set out in Notes 11 and 12 to the consolidated financial statements.

The major work performed by the Remuneration Committee included the following:-

- made recommendations to the Board on the Company's remuneration policy and structure for all Board members and senior management;
- determined the remuneration packages for individual executive Board members and senior management, including benefits in kind, pension rights, and compensation payments; and
- made recommendations to the Board on the remuneration of the independent non-executive Directors.

CORPORATE GOVERNANCE REPORT

Nomination Committee

The chairman of the Nomination Committee was Mr. Cheung Wah Kit Jason, an independent non-executive Director who had been retired on 8 May 2019. Ms. Lam Shun Ka (formerly known as Lam Yuk Shan), an independent non-executive director of the Company and also a member of the Remuneration Committee has been appointed as the chairman of the Nomination Committee on 8 May 2019. Other members of Nomination Committee include Mr. Yeung Wai Keung and Mr. Lam Yau Hin, each being an independent non-executive Director, and Mr. Yu Pak Lun Larry, chief executive officer and executive Director. The written terms of reference of the Nomination Committee as suggested under the CG Code are posted on the GEM website and on the Company's website.

The main objectives of the Nomination Committee are to implement a formal, transparent and objective procedure for appointing the Board members and to provide clear disclosure of the Company's policies on the nomination and evaluation of the Board members in the Company's annual report. Its primary functions include: (a) to review the structure, size and composition (including the skills, knowledge, experience and diversity of perspectives) of the Board at least annually and make recommendations on any proposed changes to the Board to complement the Company's corporate strategy; (b) to identify individuals suitably qualified to become the Board members and select or make recommendations to the Board on the selection of individuals nominated for directorships; (c) to assess the independence of the independent non-executive Directors; and (d) to make recommendations to the Board on the appointment or re-appointment of the Directors and succession planning for the Directors, in particular the chairman and the chief executive.

The major work performed by the Nomination Committee for the Period included the following:-

- reviewed the Board Diversity Policy and its implementation;
- reviewed the structure, size and diversity of the Board;
- assessed the independence of the independent non-executive Directors; and
- made recommendations to the Board on the selection of individuals nominated for directorship with reference to qualifications and related expertise, and the re-election of retiring Board members at the annual general meeting.

BOARD DIVERSITY POLICY

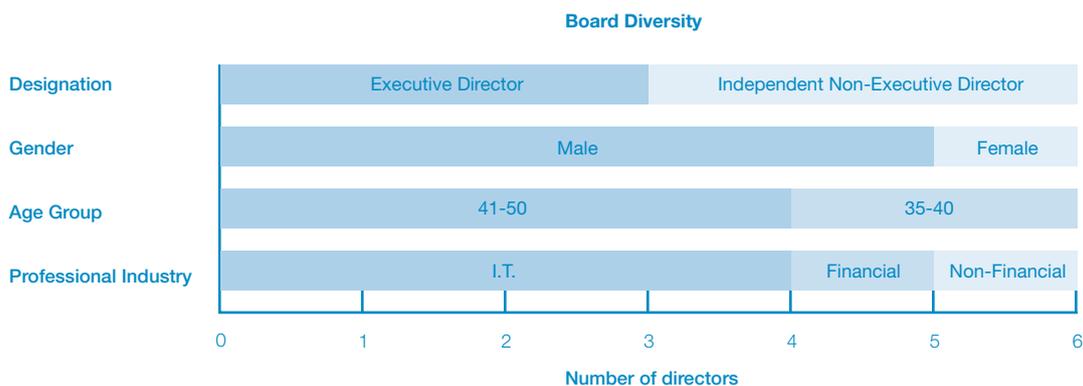

With a view to achieving a sustainable and balanced development, the Company sees increasing diversity at the Board level as an essential element in supporting the attainment of its strategic objectives and its sustainable development. All Board appointments will be based on meritocracy, and candidates will be considered against appropriate criteria, having due regard for the benefits of diversity on the Board. The Company commits to selecting the best person for the role. Selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural background and ethnicity, in addition to educational background, professional experience, skills, knowledge and length of service. If it involves the appointment of an independent non-executive Director of the Board, the Nomination Committee shall also consider the perspectives, skills and experience that the person can bring to the Board, and how the person would contribute to the diversity of the Board. The Company shall take into account its own business model and specific needs, and disclose the rationale for the factors it uses for this purpose. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

CORPORATE GOVERNANCE REPORT

NOMINATION PROCEDURE

When identifying suitable candidates for directorship, the Nomination Committee will carry out the selection process by making reference to the skills, experience, education background, professional knowledge, personal integrity and time commitments of the proposed candidates, and also the Company's needs (including the needs for board diversity) and other relevant statutory requirements and regulations required for the positions. All candidates must be able to meet the standards as set forth in Rules 5.01 and 5.02 of the GEM Listing Rules. A candidate who is to be appointed as an independent non-executive Director should also meet the independence criteria set out in Rule 5.09 of the GEM Listing Rules. Qualified candidates will then be recommended to the Board for approval.

As at the date of this report, the Board's composition under major diversified perspectives was summarised as follows:-

NUMBER OF MEETINGS AND DIRECTORS' ATTENDANCE

The Board has met regularly for considering, reviewing and/or approving matters relating to, among others, the financial and operating performance, as well as, the overall strategies and policies of the Company. Additional meetings are held when significant events or important issues are required to be discussed and resolved.

CORPORATE GOVERNANCE REPORT

The individual attendance record of the Board meetings and Board committee meetings for the year ended 31 December 2019 is set out as follows.

	Number of Board Meetings attended/ eligible to attend	Number of Audit Committee Meetings attended/ eligible to attend	Number of Remuneration Committee Meetings attended/ eligible to attend	Number of Nomination Committee Meetings attended/ eligible to attend

Ms. Lam Shun Ka (formerly known as Lam Yuk Shan) ³	4/4	4/4	1/1	1/1

1. Mr. Wong Tsun Ho Ian resigned as executive Director on 1 October 2019.
2. Mr. Cheung Wah Kit Jason retired as an independent non-executive Director on 8 May 2019.
3. Ms. Lam Shun Ka was appointed as an independent non-executive Director on 7 March 2019.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding securities transactions by the Directors on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules. Having made specific enquiries of all Directors, each of the Directors has confirmed that he/she has complied with the Standard of Dealings and the code of conduct regarding securities transactions for FY2019 and up to the date of this annual report.

COMPANY SECRETARY

Pursuant to the code provision F.1.1 of the CG Code, the company secretary of the Company should be an employee of the Company and have daily knowledge of the affairs of the Company. Ms. Lam Wai Yan, who is the company secretary of the Company, is not an employee of the Company. The Company has assigned Mr. Yu Pak Lun Larry, chief executive officer of the Group, as the liaison to Ms. Lam Wai Yan. Considering that Ms. Lam Wai Yan has an extensive experience in the corporate secretarial field, and it is more cost effective to engage an external service provider. Therefore, the Directors believe that the appointment of Ms. Lam Wai Yan as the company secretary of the Group is beneficial to the Group.

CORPORATE GOVERNANCE REPORT

Ms. Lam Wai Yan who is the Company Secretary, has taken no less than 15 hours of relevant professional training for FY2019.

INDEPENDENT AUDITOR'S REMUNERATION

The amount of fees charged by Moore Stephens CPA Limited, the external auditor, generally depends on the scope and volume of the external auditor's work performed.

For FY2019, the remuneration paid or payable to the external auditor of the Company in respect of audit services and non-audit services for the Group are as follows:-

	Fees paid/ payable for the services rendered HK\$'000
Audit services	295
Non-audit services	180

DIRECTORS' AND AUDITOR'S RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Directors acknowledge their responsibility for preparing the consolidated financial statements which gives a true and fair view of the state of affairs of the Group. The Directors aim to present a balanced and understandable assessment of the Group's position and prospects with timely publication of the consolidated financial statements of the Group. As at 31 December 2019, the Board was not aware of any material uncertainties relating to events or conditions that might cast significant doubt upon the Group's ability to continue as a going concern.

The statement of the external auditor about its reporting responsibilities on the consolidated financial statements is set out in the independent auditor's report on pages 46 to 51 of this annual report.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

Throughout the Period, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board is responsible for ensuring that the Group oversees the risk management and internal control structure and maintains a sound and effective internal control system to manage risks and safeguard the Group's shareholder investments and assets. For the year ended 31 December 2019, the Company appointed an independent internal control consultant to review the adequacy and effectiveness of its internal control system. The Group has fully implemented all internal control enhancements recommended by the consultant.

CORPORATE GOVERNANCE REPORT

The Group has also established a set of risk management policies and measures, that have been incorporated into and adopted by their policies. Such policies and measures are designed to manage and minimize the risks faced by the Group. The system can only provide reasonable but not absolute assurance to prevent material misstatement or loss. The objective of the Group's risk management policies and measures is to manage the risks in its business operations. The Group has adopted risk management procedures to identify, evaluate and manage significant risks associated with its business, industry and market in the ordinary course of business.

The Board and senior management reviewed and prepared a report on the implemented system and procedures, covering financial, operational and compliance controls and risk management functions annually. The report is to enable the Board to assess and evaluate the effectiveness and efficiency of its operations and provide reasonable assurance. The Audit Committee and the Board have also reviewed the report and supervise the implementation of the Group's risk management policies and measures.

The Directors consider that the Group has implemented effective and adequate procedures to protect the Group's assets from unauthorised use or misappropriation, maintain appropriate accounting records and execute them with appropriate authorisation and compliance with relevant laws and regulations.

In relation to the handling and dissemination of inside information in accordance with the GEM Listing Rules and the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong), the Group has adopted measures including raising awareness of confidentiality in the Group, issuing notices regarding "black-out" period and restrictions on dealings to Directors and employees on a regular basis to ensure compliance when handling and disclosing inside information.

SHAREHOLDERS' RIGHT AND INVESTOR RELATIONS

As one of the measures to safeguard Shareholders' interest and rights, separate resolutions are proposed at Shareholders' meetings on each substantial issue, including the election of individual Directors, for Shareholders' consideration and voting. All resolutions put forward at Shareholders' meeting will be voted by poll pursuant to the GEM Listing Rules and the poll voting results will be published on the GEM website and the Company's website after the relevant meeting.

Extraordinary general meeting may be convened by the Board on the written requisition of shareholders holding not less than one-tenth of the paid up capital of the Company or by such shareholders who made the requisition (the "Requisitionists") (as the case may be) pursuant to Article 64 of the articles of association. Such requisition must state the object of business to be transacted at the meeting and must be signed by the Requisitionists and deposited at the registered office of the Company or the Company's principal place of business in Hong Kong. Shareholders should follow the requirements and procedures as set out in such article for convening an extraordinary general meeting. Shareholders may put forward proposals at general meeting of the Company by sending the same to the Company's principal place of business in Hong Kong.

The Company has adopted shareholders' communication policy with the objective of providing the Shareholders of the Company with information about the Company and enabling them to engage actively with the Company and exercise their rights as Shareholders in an informed manner.

CORPORATE GOVERNANCE REPORT

The Company has established several channels to communicate with the shareholders as follows:

- (I) Information shall be communicated to Shareholders through the Company's financial reports (quarterly reports, interim reports and annual reports), annual general meetings and other general meetings that may be convened, as well as by making available all the (i) corporate communication documents including, but not limited to, copy of annual reports, interim reports, notices of meeting, circulars, proxy forms ("Corporate Communication"); (ii) other documents issued by the Company which are published on the website of The Stock Exchange of Hong Kong Limited ("SEHK") for the information or action of holders of any of its securities, including announcements, monthly returns on movements in the Company's securities for each month and next day disclosure returns; (iii) constitutional documents of the Company and board committees; (iv) corporate information including list of directors of the Company ("Directors"); and (v) other corporate publications including the procedures Shareholders can use to propose a person for election as a Director on the Company's website;
- (II) annual and special general meetings provide a forum for the shareholders to comment and exchange views with the Directors and the senior management; and
- (III) the Hong Kong share registrar of the Company serves the shareholders in respect of share registration, dividend payment and related matters.

Shareholders may at any time make a request for the Company's information to the extent such information is publicly available.

The Company welcomes enquiries and proposals from investors, stakeholders and the public. Enquiries to the Board or the Company may be sent by post to the Company's principal place of business in Hong Kong.

Address: Room 2702, Rykadan Capital Tower,
135 Hoi Bun Road,
Kwun Tong, Kowloon,
Hong Kong

For the avoidance of doubt, shareholders must deposit and send the original duly signed written requisition, notice or statement, or enquiry (as the case may be) to the above address and provide their full name, contact details and identification in order to give effect thereto. Shareholders' information may be disclosed as required by law.

SHARE OPTION SCHEME

The share option scheme of the Company (the "Share Option Scheme") has been conditionally adopted pursuant to resolutions in writing passed by our shareholders passed on 22 June 2018 for the purpose of recognising and acknowledging the contributions of eligible participants have had or may have with us. The Share Option Scheme provides the eligible participants an opportunity to have a personal stake in the Company with the view to achieving the following objectives:

- (i) motivating the eligible participants to optimise their performance efficiency for our benefit; and
- (ii) attracting and retaining or otherwise maintaining on-going business relationships with the eligible participants whose contributions are or will be beneficial to our long-term growth.

REPORT OF THE DIRECTORS

Details of the principal terms of the Share Option Scheme are set out in paragraph headed “Share Option Scheme” in section headed “Statutory and General Information” in Appendix IV to the Prospectus. The principal terms of the Share Option Scheme are summarised as follows:

Subject to the terms of the Share Option Scheme, the Board may, at its discretion, offer to grant an option to any person belonging to any of the following classes of participants (the “Eligible Participants”), to take up options to subscribe for such number of new Shares as the Board may determine:

- (i) any full-time or part-time employees, executives or officers of our Group;
- (ii) any Directors (including independent non-executive Directors) of our Group; and
- (iii) any advisers, consultants, suppliers, customers and agents to our Group; and
- (iv) such other persons who, in the sole opinion of the Board, will contribute or have contributed to us, the assessment criteria of which are contribution to our development and performance, quality of work performed for us, initiative and commitment in performing his/her duties, and length of service or contribution to us.

The maximum number of Shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other share option schemes of the Company at any time must not exceed 30% of the total number of Shares in issue from time to time.

The total number of Shares which may be issued upon exercise of all options to be granted under the Share Option Scheme and any other share option schemes of the Company must not in aggregate exceed 10% of the total number of Shares in issue on the date the Company was listed unless the Company seeks the approval of the shareholders in general meeting for refreshing the 10% limit under the Share Option Scheme provided that options lapsed in accordance with the terms of the Share Option Scheme or any other share option schemes of the Company will not be counted for the purpose of calculating 10% limit.

The Share Option Scheme was adopted for a period of 10 years commencing on 22 June 2018 and remains in force until 21 June 2028. The Company may, by resolution in general meeting or, such date as the Board determined, terminate the Share Option Scheme at any time without prejudice to the exercise of options granted prior to such termination.

REPORT OF THE DIRECTORS

The exercise price per share of the Company for each option granted shall be determined by the Board in its absolute discretion but in any event shall be at least the higher of:

- (1) the closing price of the Shares as stated in the daily quotations sheets issued by the Stock Exchange on the date of offer for the grant of option (“Date of Grant”) which must be a day on which the Stock Exchange is open for the business of dealing in securities;
- (2) the average closing prices of the Shares as stated in the daily quotations sheets issued by the Stock Exchange for the five business days immediately preceding the Date of Grant; and
- (3) the nominal value of a Share.

Upon acceptance of the options, the grantee shall pay HK\$1.00 to the Company as consideration for the grant. The acceptance of an offer of the grant of the option must be made within the date as specified in the offer letter issued by the Company. The exercise period of any option granted under the Share Option Scheme shall not be longer than 10 years commencing on the Date of Grant and expiring on the last day of such 10-year period subject to the provisions for early termination as contained in the Share Option Scheme.

The total number of new shares of the Company that may be issued upon exercise of all options to be granted under the Share Option Scheme and any other share options schemes of the Company shall not exceed 80,000,000 shares, which represents 10% of the shares in issue of the Company as at the date of this report.

The maximum number of Shares issued and to be issued upon exercise of the options granted and to be granted to each grantee under the Share Option Scheme (including exercised, cancelled and outstanding options) in any 12-month period shall not exceed 1% of the total number of Shares in issue. Any further grant of options in excess of this 1% limit shall be subject to issuance of a circular by the Company and approved by its Shareholders in accordance with the GEM Listing Rules.

No options have been granted, exercised or cancelled, or agreed to be granted, under the Share Option Scheme from the date of its adoption to 31 December 2019 and up to the date of this report.

Apart from the aforesaid share option schemes, at no time during FY2019 was any of the Company and its holding companies, subsidiaries and fellow subsidiaries a party to any arrangement to enable the Directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate, and none of the directors, or their spouses or children under the age of 18, had any right to subscribe for the shares in, or debentures of, the Company, or had exercise any such right.

ANNUAL REPORT 2019

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

INTRODUCTION

The Group believes sustainability to be an essential element in their business success. The Group is committed to building an environmental-friendly corporation while maintaining high quality standards in the service and operations. The Board of the Group leads the Group's Environmental, Social and Governance ("ESG") strategy and has continued to drive appropriate measures and to ensure internal control systems are in place to address relevant ESG issues. ESG report highlights its ESG performance and refers to the ESG reporting principles set out in Appendix 20 of the Listing Rules.

The Group believe that understanding the views of our stakeholders lay a solid foundation to the long-term growth and success of the Group. The Group continues to maintain an open dialogue with its stakeholders through staff briefing sessions, customer service channel, Annual General Meeting, regular supplier reviews, community donations, etc. to help better align business and sustainability strategy. With regular communication and interaction with stakeholders, the Group can better maintain a balance between its business practices and sustainability strategies in line with stakeholders' needs and expectations.

The Group's materiality assessment, which includes discussions on materiality aspects of ESG, indicates that, from its stakeholder's perspective, the areas "product responsibility", "anti-corruption" and "supply chain management", in order of priority, are considered to be of most material areas and may have significant influence over the Group's ESG performance.

The overall performance of the two subject areas, namely Environmental and Social for the business operations of all entities (including the Group) operating in our office in Hong Kong during the year ended 31 December 2019. For corporate governance information, please refer to the "Corporate Governance Report" on pages 19 to 30 of this annual report.

SECTION A. ENVIRONMENTAL

The Group is principally engaged in the provision of IT solutions and services. It does not involve in direct emission of large amounts of polluted air, discharge of pollutants into water and land, and generation of hazardous and nonhazardous waste. Therefore, there are no laws and regulations related to air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and nonhazardous waste that have a significant impact on the Group. On the other hand, the Group's operations involve indirect emissions of greenhouse gases, which are mainly due to the use of electricity and paper consumption. In terms of the energy consumption, carbon dioxide is the main greenhouse gas produced by the Group. The Group does not use other forms of energy and natural resources for its operation and it have no direct and significant impact on the environment.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

For the year ended 31 December 2019, the Group's quantitative information on greenhouse gases emissions is as follows:

Greenhouse Gases Emissions	2019 tonnes	2018 tonnes
Indirect Emission (Scope 2)		
Electricity	35.5	37.0
Indirect Emission (Scope 3)		
Paper Consumption	1.4	1.2
Total emission of greenhouse gases	36.9	38.2
Total emission of greenhouse gases per square metre of floor area	0.048	0.064

For the year ended 31 December 2019, the total electricity consumption of the Group is as follows:

Energy Consumption	2019	2018
Energy consumption – electricity (kwh)	69,517	65,266
Energy consumption – electricity per floor area (kwh/m ²)	0.046	0.063

Energy Consumption

In order to further reduce emission of greenhouse gases and electricity consumption, the Group will continue to implement energy saving measures. Staff of the Group are required to turn on power saving mode for computers, printers and monitors to reduce energy consumption when the machines are in idle. Staff are also required to switch off lights, printers, air conditioners and power of computers by the end of the working day. By adopting these policies, the Group wishes to create an environmental friendly working environment.

Water Consumption

Water consumption is used primarily for two purposes, including drinking water and daily cleaning. The water consumption of the Group's office in Kwun Tong is managed by the office's building management office and water usage data is not available in FY2019 and FY2018. The Group only used tap water for daily cleaning purpose in Kwun Tong office in 2019. Besides, in FY2019 and FY2018, the Group orders distilled water from suppliers for staff's drinking. Although the consumption of water is insignificant, in order to reduce the water consumption of the Group, the office has issued a notice to remind the employee to turn off the taps after use as well as using it wisely. In addition, the office has also issued a notice to remind employees to cherish drinking water.

Paper Consumption

Despite the reduction in greenhouse gas emissions caused by paper consumption, the Group will continue to promote the reduction of paper printing and encourage the use of electronic communications and electronic records. Single-sided paper is reused as scrap paper or used to print internal document. Notices have been posted in the office to remind employees to use paper wisely to reduce the consumption of paper. Besides, the Group does not use any packaging materials for its operations.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Business Air Travel

Business air travel is inevitable in some circumstances as the Group is seeking to expand its business beyond Hong Kong. Nevertheless, the staff of the Group travelled only when necessary and travelled in economy class to reduce carbon footprints. In FY2019 and FY2018, the carbon footprint of employees is immaterial as almost all business is delivered in Hong Kong. In addition, the Group believes that in order to reduce carbon emissions from air travel, the Group encourages employees to use video conference calls and participate in online meetings.

SECTION B. SOCIAL

B1: Employment

The Group develops employment policies regarding recruitment, compensation, promotion, dismissal, leave entitlements and other benefits and welfare. Employment and benefits provisions are communicated to staff through staff's handbooks. The Group is committed to creating an equal opportunity and a diverse work environment. All staff are assessed on the basis of their performance without discrimination against age, gender, pregnancy, disability, race, marital status or family status. For the year ended 31 December 2019, the Group had no material non-compliance with applicable legislation or regulations.

In addition to the above, during FY2019, the Group has engaged a new medical insurance provider to improve the benefits of staff.

As at 31 December 2019, the staff gender and age distribution by position is as follows:

Position	No. of employees	Male	Female	Aged under 30	Aged 30 to 40	Aged 41 to 50	Aged above 50
Manager or above	34	27	7	1	14	17	2
General staff	82	56	26	34	26	17	5

Staff turnover during the year ended 31 December 2019 is as follows:

Category	No. of employees	Male	Female	Aged under 30	Aged 30 to 40	Aged 41 to 50	Aged above 50
New staff	22	17	5	13	–	8	1
Staff turnover	22	18	4	12	4	5	1

B2: Health and Safety

The Group provides a safe and healthy working environment for its employees and sub-contractors and take all reasonable steps to prevent accidents and injuries during their work. There is a first aid kit in office. The Group also provides medical insurance for long-term employees. The health and safety policy of the Group states that one of the prime responsibilities of the management at all levels is to ensure all reasonably practicable actions are taken to comply with the Occupational Safety and Health Ordinance (Chapter 509 of the Laws of Hong Kong) and the policy itself.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

To the Shareholders of
Kinetix Systems Holdings Limited
(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Kinetix Systems Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 52 to 120, which comprise the consolidated statement of financial position as at 31 December 2019, and the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2019, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters identified in our audit are summarised as follows:-

- Recoverability of trade and unbilled receivables and contract assets
- Revenue from certain IT solutions services which are treated as one performance obligation and recognised over time

Recoverability of trade and unbilled receivables and contract assets

We identified the recoverability of trade and unbilled receivables and contract assets as a key audit matter because the Group has significant amount of trade and unbilled receivables and contract assets with many corporate customers and allowances are made for expected credit losses when the Group will not collect all amounts due. Management judgements are required in assessing the expected credit losses.

The Group has trade receivables, unbilled receivables and contract assets of approximately HK\$36.9 million, HK\$35.5 million and HK\$18.2 million, as disclosed in Notes 18(a), 18(b) and 21, respectively, at 31 December 2019 against which total allowance for expected credit losses of approximately HK\$9.0 million are held. The expected credit losses on the trade and unbilled receivables and contract assets are estimated by using a provision matrix. The provision rates are based on internal credit ratings (taking into consideration of the Group's historical credit loss experience, average actual date of receipt, customers' background, listing status and size as groupings of various debtors).

In assessing the credit risk of a financial asset, the Group considers historical default rates taking into consideration of both quantitative and qualitative information and forward-looking information that is reasonable and supportable without undue cost or effort and risk of default.

Our procedures in relation to the recoverability of trade and unbilled receivables and contract assets included:-

- Obtaining an understanding on the billing and collection cycle by performing walkthrough test;
- Testing the accuracy of trade receivables aging analysis of the Group;
- Assessing the appropriateness of the methodology regarding the provision matrix of allowance for expected credit losses;
- Challenging the information used to determine the expected credit losses by considering cash collection performance against historical trends and the level of credit loss changes over time;
- Reviewing the accuracy of management's judgements by comparing historical allowances of expected credit losses against actual write-offs;
- Reviewing minutes of the board of directors' meetings relating to the recoverability of trade and unbilled receivables and contract assets; and
- Understanding the nature of these assets and reviewing the correspondences with the customers.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTERS (CONTINUED)

Revenue from certain IT solutions services which are treated as one performance obligation and recognised over time

As explained in Note 4 to consolidated financial statements, certain revenue from IT solutions services are treated as one performance obligation and recognised over time because the Group considered the IT development solutions services and IT infrastructure solutions services that require the Group to carry out configuration, customisation, and integration of the hardwares and softwares were customised, highly interdependent with each other and has significant integration activities. The revenue arising from these services should be recognised by measuring the progress towards complete satisfaction of the performance obligation at the reporting date. For the year ended 31 December 2019, revenue from the related IT infrastructure solutions services of approximately HK\$3.1 million and IT development solutions services of approximately HK\$53.5 million as disclosed in Note 7 to the consolidated financial statements were recognised over time, respectively. The progress was measured by the input method, with reference to the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs. The Group has determined that an input method is an appropriate method to measure the Group's progress towards complete satisfaction of a performance obligation satisfied over time.

The above mentioned accounting policies in respect of revenue recognition were areas of our focus given the involvement of significant judgements and estimates.

Our procedures included:-

- Reviewing the content of the IT solutions services contracts to understand the nature of the services provided by the Group to their customers and assessing whether the promises to customers were distinct based on the facts and substances and the applicable accounting standard;
- Assessing the reasonableness of the basis for estimated budget costs by checking the related contracts of the IT solutions services to the budgets prepared and performing retrospective review on budgeted costs;
- Assessing the reasonableness of the basis for cost allocation by checking to the scope of work within IT solutions services contracts;
- Testing the IT solutions services costs incurred by tracing to the supporting documents; and
- Checking the mathematical accuracy of the calculation of cost allocation and completion progress of the IT solutions services.

INDEPENDENT AUDITOR'S REPORT

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all the information included in the annual report for the year ended 31 December 2019 other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS OF THE COMPANY AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The audit committee assists the directors of the Company in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:-

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Company.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the audit committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

1. CORPORATE INFORMATION

Kinetix Systems Holdings Limited (the “Company”) was incorporated as an exempted company with limited liability in the Cayman Islands on 16 September 2016 and its shares have been listed on GEM of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) (the “Listing”) by way of shares offer (the “Share Offer”) on 16 July 2018. The registered office of the Company is P.O. Box 1350, Clifton House, 75 Fort Street, Grand Cayman KY1-1108.

The Company is an investment holding company. The principal activities of the Group are provision of information technology (“IT”) infrastructure solutions services, IT development solutions services and IT maintenance and support services. During the year, the Group has new principal activity of trading of entertainment products through an existing subsidiary and a newly established subsidiary. In the opinion of the directors of the Company, the ultimate and immediate holding company of the Company is Vigorous King Limited, a company incorporated in the British Virgin Islands (“BVI”) which is wholly owned by Mr. Yu Pak Lun Larry (“Mr. Yu”), who is also the Chairman, Chief Executive Officer and Executive Director of the Company.

2. BASIS OF PREPARATION AND PRESENTATION

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”), which includes all applicable HKFRSs, Hong Kong Accounting Standards (“HKASs”) and interpretations issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). The consolidated financial statements also comply with applicable disclosure requirements of the Hong Kong Companies Ordinance and the Rules Governing the Listing of Securities on GEM of the Stock Exchange.

The consolidated financial statements have been prepared on historical cost basis and presented in Hong Kong dollars (“HK\$”), which is also the functional currency of the Company. All values are rounded to the nearest thousand except when otherwise indicated. It should be noted that accounting estimates and assumptions have been used in preparation of the consolidated financial statements. Although these estimates are based on management’s best knowledge and judgement of current events and actions, actual results may ultimately differ from those estimates. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are set out in Note 4 “Critical accounting judgements and key sources of estimation uncertainty”.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

3. ADOPTION OF NEW AND AMENDMENTS TO HKFRSs

In the current year, the Group has applied for the first time the following new and amendments to HKFRSs issued by the HKICPA, which are mandatorily effective for the Group's consolidated financial statements for the accounting period beginning on 1 January 2019:-

HKFRS 16	Leases
HK(IFRIC)-Int 23	Uncertainty over Income Tax Treatments
Amendments to HKFRS 9	Prepayment Features with Negative Compensation
Amendments to HKAS 19	Plan Amendment, Curtailment or Settlement
Amendments to HKAS 28	Long-term Interests in Associates and Joint Ventures
Amendments to HKFRSs	Annual Improvements to HKFRSs 2015–2017 Cycle

Except as described below, the application of the other new and amendments to HKFRSs in the current year has had no material impact on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

(a) HKFRS 16 Leases

The Group has applied HKFRS 16 for the first time in the current year. HKFRS 16 superseded HKAS 17 Leases ("HKAS 17"), and the related interpretations.

Definition of a lease

The Group has elected the practical expedient to apply HKFRS 16 to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC)-Int 4 Determining whether an Arrangement contains a Lease and not apply this standard to contracts that were not previously identified as containing a lease. Therefore, the Group has not reassessed contracts which already existed prior to the date of initial application.

For contracts entered into or modified on or after 1 January 2019, the Group applies the definition of a lease in accordance with the requirements set out in HKFRS 16 in assessing whether a contract contains a lease.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

3. ADOPTION OF NEW AND AMENDMENTS TO HKFRSs (CONTINUED)

(a) HKFRS 16 Leases (continued)

As a lessee

The Group has applied HKFRS 16 retrospectively with the cumulative effect recognised at the date of initial application, 1 January 2019.

As at 1 January 2019, the Group recognised additional lease liabilities and measured right-of-use assets at the carrying amounts as if HKFRS 16 had been applied since commencement dates, but discounted using the incremental borrowing rates of the relevant group entities at the date of initial application by applying HKFRS 16.C8(b)(i) transition. Any difference at the date of initial application is recognised in the opening retained profits and comparative information has not been restated.

When applying the modified retrospective approach under HKFRS 16 at transition, the Group applied the following practical expedients to leases previously classified as operating leases under HKAS 17, on lease-by-lease basis, to the extent relevant to the respective lease contracts:-

- i. excluded initial direct costs from measuring the right-of-use assets at the date of initial application; and
- ii. used hindsight based on facts and circumstances as at date of initial application in determining the lease term for the Group's leases with extension and termination options.

When recognising the lease liabilities for leases previously classified as operating leases, the Group has applied incremental borrowing rates of the relevant group entities at the date of initial application. The weighted average incremental borrowing rate applied is 4.12%.

	At 1 January 2019 HK\$'000

3. ADOPTION OF NEW AND AMENDMENTS TO HKFRSs (CONTINUED)

(a) HKFRS 16 Leases (continued)

As a lessee (continued)

The carrying amount of right-of-use assets for own use as at 1 January 2019 comprises the following:-

	Note	Right-of-use assets HK\$'000
Right-of-use assets relating to operating leases recognised upon application of HKFRS 16		6,042
Less: Accrued lease liability relating to rent-free period at 1 January 2019	(i)	(563)
		5,479

(i) *Rent-free period*

The amount relates to accrued lease liability for lease of a property in which the lessor provided rent-free period. The carrying amount of the lease incentive liability under trade and other payables and accruals as at 1 January 2019 was adjusted to right-of-use assets at transition.

The following table summarises the impact of transition to HKFRS 16 on retained profits at 1 January 2019.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of the consolidated financial statements requires the directors of the Company to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The directors of the Company have considered the development, selection and disclosure of the Group's critical accounting judgements and estimates.

Judgements

In the process of applying the Group's accounting policies, the directors of the Company have made the following judgements which have the most significant effect on the amounts recognised in the consolidated financial statements:-

Principal versus agent consideration

The Group engages in provision of IT solutions services, IT maintenance and support services and trading of entertainment products. IT solutions services represented IT infrastructure solutions services and IT development solutions services. During the year, the Group has new principal activity of trading of entertainment products.

Upon application of HKFRS 15, the Group reassessed whether the Group should continue to recognise revenue on gross basis based on the requirements in HKFRS 15. The Group concluded that the Group acts as the principal for the transactions as it controls the specified good or service before it is transferred to the customer after taking into consideration indicators such as the Group is primarily responsible for fulfilling the promise to provide the goods and services, the Group has price risk and discretion in establishing the price for the goods and services as well as inventory risk. When the Group satisfies the performance obligation, the Group recognises revenue in gross amount of consideration to which the Group expects to be entitled as specified in contracts. During the year ended 31 December 2019, the Group recognised revenue related to provision of IT infrastructure solutions services of HK\$120,476,000 (2018: HK\$117,798,000) and trading of entertainment products of HK\$10,035,000 (2018: HK\$nil), respectively.

Revenue recognition from certain provision of IT solutions services which are treated as one performance obligation and over time

Revenue arising from IT infrastructure solutions services which involved configuration, customisation and integration of the hardwares and softwares in accordance with clients' requirements and specifications. Revenue arising from IT development solutions services is involved tailor-made IT development solution services that cater for clients' own requirements. IT development solutions services usually entail system analysis and design, system development and technology consultancy depending on the project requirements which can customise clients' needs.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

Revenue recognition from certain provision of IT solutions services which are treated as one performance obligation and over time (continued)

The management assessed and concluded that there are significant integration activities for the above mentioned IT solutions services. Also, these solutions provided were customised for the Group's customers and they were highly interdependent with each other. Therefore, the above mentioned services are treated as one performance obligation. Under HKFRS 15, one of the criteria for revenue to be recognised overtime is when control of the asset is transferred over time when the Group's performance creates or enhances an asset (for example, work in progress) that the customer controls as the asset is created or enhanced. Based on the assessment by the directors of the Company, the customer controls the asset as it is created or enhanced. As the Group performs the services at its customers' premises. Accordingly, the revenue from the above mentioned IT solutions services is considered to be one performance obligation satisfied over time.

For the revenue from IT solutions services recognised over time, the Group recognised revenue by measuring the progress towards complete satisfaction of the performance obligation at the reporting date. The progress was measured by the percentage of completion, with reference to the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs. When the outcome of a service contract cannot be estimated reliably, revenue is recognised only to the extent of contract costs incurred that it is probable will be recoverable and no profit is recognised. Management reviewed and revised the estimates of contract revenue and contract costs for each contract as the contract progresses. Management used significant judgements and estimations to determine the progress towards complete satisfaction of the performance obligation at the reporting date.

In respect of transactions where the related consideration are concluded to be recognised as revenue over time, the Group has determined that an input method is an appropriate method to measure the Group's progress towards complete satisfaction of a performance obligation satisfied over time, which is based on costs incurred compared to total budgeted costs.

Significant judgements are required in determining whether the above mentioned IT solutions services should be treated as one performance obligation and the progress towards complete satisfaction of the performance obligation at the reporting date. The recognition is sensitive to changes in total budget costs. For the year ended 31 December 2019, revenue from the related IT infrastructure solutions services of approximately HK\$3.1 million (2018: HK\$7.5 million) and IT development solutions services of approximately HK\$53.5 million (2018: HK\$46.7 million) were recognised over time. The information about the revenue from IT solutions over time is disclosed in Note 7.

Estimation uncertainties

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:-

Useful lives and depreciation of property, plant and equipment

The Group determines the estimated useful lives and related depreciation charges of its property, plant and equipment. These estimates are based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions. The Group will increase the depreciation charge where useful lives are less than previously estimated lives, and will write off or write down technically obsolete or non-strategic assets that have been abandoned or sold. Actual economic lives may differ from estimated useful lives. Periodic review could result in a change in depreciable lives and therefore depreciation charges in the future periods.

Estimation uncertainties (continued)

Allowance for expected credit losses for trade and unbilled receivables and contract assets

The Group uses a provision matrix to calculate expected credit losses for the trade and unbilled receivables and contract assets. The provision rates are based on internal credit ratings (taking into consideration of historical credit loss experience, average actual date of receipt, customers' background, listing status and size as groupings of various debtors). The provision matrix is based on the Group's historical default rates taking into consideration of quantitative and qualitative information and forward-looking information that is reasonable and supportable without undue costs or effort and risk of default. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered. In addition, trade and unbilled receivables and contract assets with significant balances and credit impaired are assessed for expected credit losses individually. The allowance for expected credit losses is sensitive to changes in estimates. The information about the expected credit losses and the Group's trade and unbilled receivables and contract assets are disclosed in Notes 18(a), 18(b), 21 and 33(a)(ii), respectively.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted in the preparation of the consolidated financial statements are summarised below. These policies have been consistently applied to all the years presented unless otherwise stated:-

(a) Basis of consolidation

These consolidated financial statements include the financial statements of the Company and its subsidiaries. A subsidiary is an entity, directly or indirectly, controlled by the Company. Control is achieved when the Group has power over the investee; is exposed, or has rights, to variable returns from its involvement with the investee; and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated profit or loss and consolidated statement of comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of consolidation (continued)

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

(b) Business combinations

Business combinations are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the relevant subsidiary's net assets in the event of liquidation at fair value or at the non-controlling interests' proportionate share of the recognised amounts of acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

(c) Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost, less provisions for depreciation and impairment losses, if any.

The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable cost of bringing the asset to its working condition and location for its intended use. Expenditure incurred after the item has been put into operation, such as repairs and maintenance and overhaul costs, is normally charged to the consolidated profit or loss in the year in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in future economic benefits expected to be obtained from the use of the item, the expenditure is capitalised as an additional cost of the item. When an item of property, plant and equipment is sold, its cost and accumulated depreciation are removed from the financial statements and any gain or loss resulting from the disposal, being the difference between the net disposal proceeds and the carrying amount of the asset, is included in consolidated profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Property, plant and equipment and depreciation (continued)

Depreciation is provided on the straight-line method, based on the estimated economic useful life of the individual assets, as follows:-

Leasehold improvements	over lease term
Furniture and fixtures	20% per annum
Equipment	30% per annum

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the consolidated profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

(d) Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories and financial assets), the recoverable amount of the asset is estimated. An asset's recoverable amount is the higher of the value in use of the asset or cash-generating unit to which it belongs and its fair value less costs to sell, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the consolidated profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Impairment of non-financial assets (continued)

An assessment is made at the end of each reporting period as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation), had no impairment loss been recognised for the asset in prior years. A reversal of such impairment loss is credited to the consolidated profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

(e) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a first-in, first-out basis and includes all costs of purchase, costs of conversion, and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

(f) Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Financial instruments (continued)

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets and financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets and financial liabilities at fair value through profit or loss are recognised immediately in consolidated profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liabilities, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:-

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit impaired.

Impairment of financial assets

The Group recognises a loss allowance for expected credit losses ("ECL") on financial assets which are subject to impairment under HKFRS 9 (including amount due from immediate holding company/ non-controlling shareholders of subsidiaries, deposits, trade receivables, unbilled receivables, cash and cash equivalents) and contract assets. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables, unbilled receivables and contract assets without significant financing component. The ECL on these assets are assessed individually for debtors with significant balances and/or collectively using a provision matrix based on the Group's historical credit loss experience, average actual date of receipt, customers' background, listing status, industry and size as groupings of various debtors.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:-

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

(i) Significant increase in credit risk (continued)

- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if i) it has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of 'investment grade' as per globally understood definitions.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:-

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- (e) the disappearance of an active market for that financial asset because of financial difficulties.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in consolidated profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

(f) Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

(v) Measurement and recognition of ECL (continued)

Where ECL is measured on a collective basis or cater for cases where evidence at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis:-

- Nature of financial instruments (i.e. the Group's trade receivables, unbilled receivables and contract assets are each assessed as a separate group.);
- Historical credit loss experience;
- Average actual date of receipt;
- Nature, size, industry and listing status of debtors; and
- Internal credit ratings.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in consolidated profit or loss for all financial instruments with a corresponding adjustment to their carrying amount, with the exception of trade receivables, unbilled receivables and contract assets where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:-

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

For the year ended 31 December 2019

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Financial instruments (continued)

Financial assets (continued)

Derecognition of financial assets (continued)

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in consolidated profit or loss.

Financial liabilities and equity

Classification as debt or equity and measurement

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in consolidated profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

All financial liabilities include trade and other payables and lease liabilities are subsequently measured at amortised cost using the effective interest rate method.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in consolidated profit or loss.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(g) Leases

Definition of a lease (upon application of HKFRS 16 in accordance with transition in Note 3(a))

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified or arising from business combinations on or after the date of initial application, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee (upon application of HKFRS 16 in accordance with transition in Note 3(a))

Short-term leases

The Group applies the short-term lease recognition exemption to lease of office premise of one of its subsidiaries that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. Lease payments on short-term leases are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Right-of-use assets

The cost of right-of-use asset includes:-

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

(g) Leases (continued)

The Group as a lessee (upon application of HKFRS 16 in accordance with transition in Note 3(a)) (continued)

Right-of-use assets (continued)

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 Financial Instruments ("HKFRS 9") and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:-

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(g) Leases (continued)

The Group as a lessee (upon application of HKFRS 16 in accordance with transition in Note 3(a)) (continued)

Lease liabilities (continued)

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:-

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review/expected payment under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

Lease modifications

The Group accounts for a lease modification as a separate lease if:-

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities and lease incentives from lessor by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(g) Leases (continued)

Leases (prior to 1 January 2019)

The Group as a lessee

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if it is determined that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

(i) Classification of assets leased to the Group

Assets that are held by the Group under leases which transfer to the Group substantially all the risks and rewards of ownership are classified as being held under finance leases. Leases which do not transfer substantially all the risks and rewards of ownership to the Group are classified as operating leases.

(ii) Operating lease charges

Where the Group has the use of assets held under operating leases, payments made under the leases are charged to consolidated profit or loss in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased assets. Lease incentives received are recognised in consolidated profit or loss as an integral part of the aggregate net lease payments made. Contingent rentals, if any, are charged to consolidated profit or loss in the accounting period in which they are incurred.

(h) Foreign currency translation

These consolidated financial statements are presented in Hong Kong dollars, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions are initially recorded using the functional currency rates ruling at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the consolidated profit or loss.

(i) Revenue from contracts with customers

Under HKFRS 15, the Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Revenue from contracts with customers (continued)

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:-

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to the same contract are accounted for and presented on a net basis.

Over time revenue recognition: measurement of progress towards complete satisfaction of a performance obligation

Input method

The progress towards complete satisfaction of a performance obligation is measured based on input method, which is to recognise revenue on the basis of the Group's efforts or inputs to the satisfaction of a performance obligation relative to the total expected inputs to the satisfaction of that performance obligation, that best depict the Group's performance in transferring control of goods or services.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Revenue from contracts with customers (continued)

Details of the Group's revenue and other income recognition policies are as follows:-

ii) Revenue from IT infrastructure solutions services

Certain revenue from IT infrastructure solutions services that require the Group to carry out installation, testing and integration works is recognised over time using the input method by reference to the progress towards complete satisfaction of the relevant performance obligation, as the Group's performance creates and enhances an asset that the customer controls as the Group performs the services at its customers' premises. However, revenue arising from contracts for IT infrastructure solutions which involves just sales of hardwares and/or softwares are recognised at a point in time. Under the transfer-of-control approach in HKFRS 15, revenue from these types of services is recognised when the hardwares and/or softwares are delivered and accepted by the customers, which is a point in time when customers have the ability to direct the use of the hardwares and/or softwares and obtain substantially all of the remaining benefits of the hardwares and/or softwares.

The Group's IT infrastructure solutions services contracts include payment schedules which require stage payments over the service period once certain specified milestones are reached. The Group requires certain customers to provide upfront deposits, when the Group receives a deposit before IT infrastructure solutions services commences, this will give rise to contract liabilities at the start of a contract, until the revenue recognised on the specific contract exceeds the amount of the deposit.

A contract asset, net of contract liability related to the same contract, is recognised over the period in which the IT infrastructure solutions services are performed representing the Group's right to consideration for the services performed because the rights are conditioned on the Group's future performance in achieving specified milestones. The contract assets are transferred to trade receivables when the rights become unconditional.

Retention receivables, prior to expiration of defect liability period, are classified as contract assets, which is within one year from the date of the practical completion of the IT infrastructure solutions services. The relevant amount of contract assets is reclassified to trade receivables when the defect liability period expires. The defect liability period serves as an assurance that the IT infrastructure solutions services performed comply with agreed-upon specifications and such assurance cannot be purchased separately.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Revenue from contracts with customers (continued)

ii) Revenue from IT development solutions services

Revenue from IT development solutions services is recognised over time using the input method by reference to the progress towards complete satisfaction of the relevant performance obligation, as the Group's performance creates and enhances an asset that the customer controls as the Group performs the services at its customers' premises.

The Group's IT development solutions services contracts include payment schedules which require stage payments over the service period once certain specified milestones are reached. The Group requires certain customers to provide upfront deposits, when the Group receives a deposit before IT development solutions services commence, this will give rise to contract liabilities at the start of a contract, until the revenue recognised on the specific contract exceeds the amount of the deposit.

A contract asset, net of contract liability related to the same contract, is recognised over the period in which the IT development solutions services are performed representing the Group's right to consideration for the services performed because the rights are conditioned on the Group's future performance in achieving specified milestones. The contract assets are transferred to trade receivables when the rights become unconditional.

Retention receivables, prior to expiration of defect liability period, are classified as contract assets, which is within one year from the date of the practical completion of the IT development solutions services. The relevant amount of contract assets is reclassified to trade receivables when the defect liability period expires. The defect liability period serves as an assurance that the IT development solutions services performed comply with agreed-upon specifications and such assurance cannot be purchased separately.

iii) Revenue from IT maintenance and support services

Revenue relating to the IT maintenance and support services is recognised over time as the customers simultaneously receive and consume the benefits provided by the Group when the Group renders the services. The transaction price is recognised as a contract liability at the time of the initial transaction and is released on a straight-line basis over the period of service.

iv) Trading of entertainment products

The Group sells entertainment products to the distributor.

Revenue is recognised when control of the goods has transferred, being when the goods have been delivered to the distributor. Following the delivery, the distributor has full discretion over the manner of distribution and price to sell the goods, has the primary responsibility when on selling the goods and bears the risks of obsolescence and loss in relation to the goods. The normal credit term is 7 to 30 days upon delivery.

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that discounts the estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Revenue from contracts with customers (continued)

Incremental costs of obtaining a contract

Incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained.

The Group applies the practical expedient of expensing incremental costs to obtain contract if these costs would otherwise have been fully amortised to consolidated profit or loss within one year.

Principal versus agent

When another party is involved in providing goods or services to a customer, the Group determines whether the nature of its promise is a performance obligation to provide the specified goods or services itself (i.e. the Group is a principal) or to arrange for those goods or services to be provided by the other party (i.e. the Group is an agent).

The Group is a principal if it controls the specified good or service before that good or service is transferred to a customer.

The Group is an agent if its performance obligation is to arrange for the provision of the specified good or service by another party.

In this case, the Group control the specified good or service provided by another party before that good or service is transferred to the customer. When the Group acts as a principal, it recognises revenue on a gross basis.

(j) Borrowing costs

All borrowing costs are charged to the consolidated profit or loss in the period in which they are incurred.

(k) Income tax

Income tax represents the sum of current and deferred tax.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the company operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Income tax (continued)

Deferred tax liabilities are recognised for all taxable temporary differences, except:-

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilised, except:-

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax is calculated, without discounting, at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(I) Other employee benefits

(i) Pension scheme

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the “MPF Scheme”) under the Mandatory Provident Fund Schemes Ordinance for all of its employees in Hong Kong. Contributions are made based on a percentage of the employees’ basic salaries and are charged to the consolidated profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group’s employer contributions vest fully with the employees when contributed into the MPF Schemes except for the Group’s employer voluntary contributions forfeited when the employees leave employment prior to fully vesting in such contributions, which can be used to reduce the amount of future employer contributions or to offset against future administration expenses or to refund to the Group, in accordance with the rules of the MPF Schemes.

The employees of the subsidiaries within the Group which operate in Macau are required to participate in the pension scheme operated by the local municipal government. These subsidiaries are required to contribute a fixed amount to the pension scheme as specified by the local municipal government. The contributions are charged to the consolidated profit or loss as they become payable in accordance with the rules of the pension scheme.

(ii) Employee long service payment

Under the Hong Kong Employment Ordinance, the Group is required to make long service payments to its employees upon the termination of their employment or retirement on ground of old age when the employee fulfils certain conditions and the termination meets the required circumstances. Further, where accrued benefits (excluding any part attributable to the employee’s contributions) have been paid to the employee, or is being held in a mandatory provident fund scheme by the employee, which is the case for most of the eligible employees of the Group, the long service payment is offset against the aforementioned amount of benefits to the extent that they relate to the employee’s years of service for which the long service payment is payable.

The Group makes its estimates of its obligations to make long service payments to its employees in the event of termination of their employment or retirement. The Group’s obligations to make such long service payments are recognised in the consolidated profit or loss as long service payment liabilities at the present value (where the effect of discounting is material) of the long service payment obligations, which are estimated after deducting the entitlements accrued under the Group’s defined contribution retirement scheme that are attributable to contributions made by the Group. Service cost, net interest on the long service payment liabilities (where discounting to present value is adopted because the effect of discounting is material) and remeasurements of the long service payment liabilities are recognised in consolidated profit or loss.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(m) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, and short-term highly liquid investments which are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired.

(n) Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in consolidated profit or loss.

(o) Related parties

(a) A person, or a close member of that person's family, is related to the Group if that person:-

- (i) has control or joint control over the Group;
- (ii) has significant influence over the Group; or
- (iii) is a member of key management personnel of the Group or the Group's parent;

or

(b) An entity is related to the Group if any of the following conditions applies:-

- (i) the entity and the Group are members of the same group;
- (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
- (iii) the entity and the Group are joint ventures of the same third party;
- (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
- (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
- (vi) the entity is controlled or jointly controlled by a person identified in (a);
- (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and

(o) Related parties (continued)

(b) (continued)

- (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the reporting entity or to the parent of the reporting entity.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

(p) Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purpose of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of services, the nature of production processes, the type or class of customers, the methods used to provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

6. SEGMENT INFORMATION

The Group manages its businesses by business lines. In a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group has presented the following four (2018: three) reportable segments. No operating segments have been aggregated to form the following reportable segments.

- IT solutions services
 - (i) IT infrastructure solutions services: this segment earns revenue in relation to analyses of customers' existing IT infrastructure, procurement of hardware and/or software, installation and testing and integration services.
 - (ii) IT development solutions services: this segment earns revenue from designing of IT development solutions to cater to customers' special requirements which involves system analysis and design, software development and technology consultancy.
- IT maintenance and support services: this segment represents ongoing IT maintenance and support services to systems developed by the Group and maintenance and support services on hardware and software purchased or developed from third party suppliers.
- Segment of Others comprises trading of entertainment products (i.e, consoles and games).

During the year, the Group commenced the business of trading of entertainment products through a subsidiary and a newly established subsidiary and it is considered as a new operating and reportable segment by the most senior executive management.

6. SEGMENT INFORMATION (CONTINUED)

(a) Segment revenue and results

For the purposes of assessing segment performance and allocating resources between segments, the Group's most senior executive management monitors the results attributable to each reportable segment on the following bases:-

Revenue and expenses are allocated to the reportable segments with reference to revenue generated by those segments and the expenses incurred by those segments. The measure used for reporting segment profit is gross profit. No inter-segment sales have occurred during the year. The Group's other income and expense items, such as general and administrative expenses, and assets and liabilities are not measured under individual segments. Accordingly, neither information on segment assets and liabilities nor information concerning capital expenditure, depreciation and amortisation, interest income and interest expenses is presented.

Information regarding the Group's reportable segments as provided to the Group's most senior executive management for the purposes of resource allocation and assessment of segment performance for the year ended 31 December 2019 is set out below.

As at 31 December 2019, HK\$49,342,000 (2018: HK\$40,197,000) is the aggregated amount of the transaction price allocated to the remaining performance obligations that are unsatisfied as of the end of the reporting period, based on the contracts entered into with customers. The Group will recognise the expected revenue in future when or as a performance obligation is satisfied, which is expected to occur over the next 12 to 24 months. For contracts for IT maintenance and support services, since they are expected to occur within 12 months, the transaction price of allocated to these unsatisfied contracts is not disclosed as permitted under HKFRS 15.

Salaries, allowance and other benefits in kind	2,579	2,742
Retirement fund scheme contributions	54	54
Total	2,633	2,796

13. INCOME TAX

On 21 March 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the "Bill") which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

Accordingly, the Hong Kong profits tax of the qualifying group entity is calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million. Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

Details of income tax are as follows:-

	2019 HK\$'000	2018 HK\$'000
Current tax – Hong Kong		
– provision for the year	1,096	1,863
– prior year overprovision	(20)	(34)

13. INCOME TAX (CONTINUED)

A reconciliation of the tax expense applicable to profit/(loss) before tax at the statutory rate for the jurisdiction in which the Company and the subsidiaries are domiciled to the tax expense at the effective tax rate is as follows:-

	2019 HK\$'000	2018 HK\$'000
Profit/(loss) before tax	2,684	(7,193)
Tax at applicable rate	442	(1,108)
Income not subject to tax	(441)	(4)
Tax effect of temporary differences not recognised	46	(25)
Tax effect of expenses that are not deductible in determining taxable profit	1,249	2,769
Tax effect of tax losses not recognised	7	231
Utilisation of tax losses not previously recognised	(2)	—
Tax effect of two-tiered tax rates	(165)	—
Tax effect of different tax rates in other jurisdictions	30	—
Others	(70)	—
Prior year overprovision	(20)	(34)
	1,076	1,829

At the end of the reporting period, the Group has deductible temporary differences of HK\$220,000 (2018: taxable temporary difference of HK\$59,000) and unused tax losses of HK\$40,000 (2018: HK\$10,000) available offset against future profits. No deferred tax asset has been recognised due to the unpredictability of future profit streams. The unrecognised tax losses may be carried forward indefinitely.

14. DIVIDEND

No dividend have been declared or paid by the Company during the year (2018: HK\$nil).

15. EARNINGS/(LOSS) PER SHARE

	2019 HK\$'000	2018 HK\$'000
Profit/(loss) and total comprehensive income/(loss) for the year attributable to the owners of the Company	2,179	(9,008)
Weighted average number of ordinary shares for the purpose of calculating basic earnings/(loss) per share (in thousand)	800,000	692,603

The number of ordinary shares for the purpose of calculating basic earnings/(loss) per share has been determined on the assumption that the capitalisation issue disclosed in the prospectus issued by the Company dated 30 June 2018 had been effective on 1 January 2018.

No adjustment has been made to the basic earnings/(loss) per share amounts presented for the years ended 31 December 2019 and 2018, respectively as the Group had no potentially dilutive ordinary shares in issue for the relevant years ended. The basic earnings/(loss) per share equals to the diluted earnings/(loss) per share.

For both years, the Group leases various office premises and a director's quarter for its operations. Lease contracts are entered into for fixed term of 12 months to 4 years, but may have extension and termination options as described below. Lease terms are negotiated on an individual basis and contain different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

No short-term lease is committed at the year ended 31 December 2019.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

17. RIGHT-OF-USE ASSETS (CONTINUED)

Extension and termination options

The Group has extension and/or termination options in a number of leases for a office premise and a director's quarter. These are used to maximise operational flexibility in terms of managing the assets used in the Group's operations. The extension and termination options held are exercisable only by the Group.

The Group assesses at lease commencement date whether it is reasonably certain to exercise the extension options or not to exercise the termination options. The potential exposures to these future lease payments for (i) extension option in which the Group is not reasonably certain to exercise; and (ii) termination option in which the Group is not reasonably certain not to exercise is summarised below:-

	Lease liabilities recognised as at 31 December 2019 HK\$'000	Potential future lease payments not included in lease liabilities (undiscounted) HK\$'000
Office premise – Hong Kong	3,832	8,003
Director's quarter – Hong Kong	418	518

In addition, the Group reassesses whether it is reasonably certain to exercise an extension option, or not to exercise a termination option, upon the occurrence of either a significant event or a significant change in circumstances that is within the control of the lessee. During the year ended 31 December 2019, there is no such triggering event.

18. TRADE AND OTHER RECEIVABLES, DEPOSITS AND PREPAYMENTS (CONTINUED)

(a) Trade receivables (continued)

The following is an aging analysis of trade receivables net of allowance for ECL from third parties presented based on the due date at the end of the reporting period:-

	2019 HK\$'000	2018 HK\$'000
Neither past due nor impaired	31,018	23,299
Less than 1 month past due	2,346	12,713

3 to 6 months past due	68	275
More than 6 months past due	486	76
	36,943	38,904

Details of impairment assessment of trade receivables are set out in Note 33(a)(ii).

(b) Unbilled receivables

	2019 HK\$'000	2018 HK\$'000
Unbilled receivables	35,961	43,207
Less: allowance for ECL	(475)	(476)
	35,486	42,731

The unbilled receivables were mainly attributable to fully completed IT solutions services and maintenance and support services which will be billed within the next twelve months from the end of the reporting period in accordance with the payment terms stipulated in the relevant contracts, quotation, purchase orders and service agreements entered into between the Group and the customers. For these completed services, the revenue has been fully recognised. Since the Group has unconditional right to consideration but only the passage of time is required before payment of that consideration is due, the Group classified these as unbilled receivables. Details of impairment assessment of unbilled receivables are set out in Note 33(a)(ii).

18. TRADE AND OTHER RECEIVABLES, DEPOSITS AND PREPAYMENTS (CONTINUED)

(c) Deposits

As at 31 December 2019, included in deposits are margin deposits of HK\$376,000 (2018: HK\$1,072,000), which were pledged to a bank to secure the bank to provide performance guarantee to the Group for the due performance and observance of the Group's obligations under the contracts entered into between the Group and their customers.

(d) Prepayments

As at 31 December 2019, prepayments mainly represent advances to suppliers for software of HK\$2,500,000 (2018: HK\$nil) and entertainment products of HK\$6,000,000 (2018: HK\$nil).

As at 1 January 2018, contract assets amounted to HK\$7,505,000.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

21. CONTRACT ASSETS (CONTINUED)

The contract assets primarily relate to the Group's right to consideration for work completed and not billed because the rights are conditioned on the Group's future performance. The contract assets are transferred to trade receivables or unbilled receivables when the rights become unconditional.

Typical payment terms which impact on the amount of contract assets recognised are as follows:–

- IT solutions services contracts

The Group's IT solutions services contracts include payment schedules which require stage payments over the IT solution services period once certain specified milestones are reached. The contract assets are transferred to trade receivables or unbilled receivables when specified milestones of IT solutions services are reached.

The Group also typically agrees to a retention period for a specified percentage of the contract value agreed by the customers. This amount is included in contract assets until the end of the retention period as the Group's entitlement to this final payment is conditional on the IT solutions services performed comply with agreed-upon specifications. The Group typically reclassified contract assets to trade receivables when the defect liability period expires.

The significant increase in contract assets is resulted from the increase in ongoing IT solutions services at the end of the year.

The Group classifies these contract assets as current because the Group expects to realise them in its normal operating cycle.

Details of the impairment assessment are set out in Note 33(a)(ii).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

26. CONTRACT LIABILITIES (CONTINUED)

Contract liabilities, that are not expected to be settled within the Group's normal operating cycle, are classified as current and non-current based on the Group's earliest obligation to transfer goods or services to the customers.

Typical payment terms which impact on the amount of contract liabilities recognised are as follows:-

- IT solutions services and IT maintenance and support services contracts

When the Group receives a deposit before the IT solutions services or IT maintenance and support services commences, this will give rise to contract liabilities at the start of a contract, until the revenue recognised on the relevant contract exceeds the amount of the deposit.

27. TRADE AND OTHER PAYABLES AND ACCRUALS

28. CONTINGENT LIABILITIES

As at 31 December 2019, the margin deposits of the Group amounted to HK\$376,000 (2018: HK\$1,072,000). These were pledged to a bank to secure the bank to provide guarantee to the Group in favour of the Group's customers as security for the due performance and observance of the Group's obligations under the contracts entered into between the Group and their customers. If the Group fails to provide satisfactory performance to their customers to whom performance guarantee have been given, such customers may demand the bank to pay them the sum or sum stipulated in such demand. The margin deposits will be forfeited or deducted to compensate the bank accordingly. The margin deposits will be released upon completion of the contract works.

33. FINANCIAL RISK MANAGEMENT

(a) Financial risk management

The Group is exposed to a variety of risks including foreign currency risk, credit risk, liquidity risk and interest rate risk arising in the normal course of the business activities.

The Group does not have any written risk management policies and guidelines. The directors of the Company monitor the financial risk management of the Group and take such measures as considered necessary from time to time to minimise such financial risks.

(i) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Group is exposed to foreign currency risk related primarily to income and costs that are denominated in a currency other than the functional currency of the operations to which they relate. The currencies giving rise to this risk are primarily United States dollars ("US\$") and Euro ("EUR"). The Group does not hold or issue any derivative financial instruments for trading purposes or to hedge against fluctuations in foreign exchange rates. The Group mitigates this risk by conducting the sales and purchases transactions in the same currency, whenever possible.

In the opinion of the directors of the Company, the rate of exchange of the US\$ to the HK\$ is reasonably stable under the linked exchange rate system and, accordingly, the Group does not have any significant foreign exchange risk arising from US\$. As a result, no sensitivity analysis is performed.

The following table details the Group's exposure at the end of the reporting period to currency risk arising from recognised monetary assets or liabilities denominated in a currency other than the functional currency of the entity to which they relate.

	2019 HK\$'000	2018 HK\$'000
Cash and cash equivalents and total net exposure (in EUR)	1,255	—

At 31 December 2019, if the HK\$ had weakened/strengthened 10% against the EUR with all other variables held constant, the Group's profit after tax for the year would have been HK\$126,000 (2018: HK\$nil) and HK\$126,000 (2018: HK\$nil) higher/lower respectively and equity would have been HK\$126,000 (2018: HK\$nil) higher/lower.

33. FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) Financial risk management (continued)

(ii) *Credit risk and impairment assessment*

As at 31 December 2019, the financial assets whose carrying amounts best represent the maximum exposure to credit risk. The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

Trade receivables, unbilled receivables and contract assets arising from contracts with customers

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits and credit approvals. Monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

Due from immediate holding company/non-controlling shareholders of subsidiaries

The Group regularly monitors the business performance of the immediate holding company and non-controlling shareholders of subsidiaries. The directors of the Company believe that there is no significant increase in credit risk of these amounts since initial recognition and the Group provided impairment based on 12-month ECL. The balance of amount due from immediate holding company is considered to be insignificant while the Group's credit risks in the amounts due from non-controlling shareholders of subsidiaries are mitigated through the value of the assets held by these non-controlling shareholders and the power to participate the relevant activities of the respective subsidiaries. For the year ended 31 December 2019 and 2018, the Group assessed the ECL for amounts due immediate holding company and non-controlling shareholders of subsidiaries are insignificant and thus no loss allowance was recognised.

Bank balances

The credit risks on bank balances are limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

Deposits

The directors of the Company make periodic individual assessment on the recoverability of deposits to suppliers and sub-contractors based on historical settlement records, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information. The directors of the Company believe that there is no significant increase in credit risk of these amounts since initial recognition and the Group provided impairment based on 12-month ECL. For the year ended 31 December 2019 and 2018, the Group assessed the ECL for and deposits were insignificant and thus no loss allowance was recognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

33. FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) Financial risk management (continued)

(ii) Credit risk and impairment assessment (continued)

Other than concentration of credit risk on liquid funds which are deposited with several banks with high credit ratings, the Group does not have any other significant concentration of credit risk. Trade receivables consist of a large number of customers, spread across diverse industries.

The Group's internal credit risk grading assessment comprises the following categories:-

Types of customer	Internal credit rating	Description	Trade receivables/ unbilled receivables/ contract assets	Other financial assets/other items
Public sector	Low risk	The counterparty has a low risk of default	Lifetime ECL – provision matrix	12-month ECL
Private sector – listed companies – private companies	Watch list	Debtor frequently repays after due dates but usually settle in full	Lifetime ECL – provision matrix	12-month ECL
Private sector – listed companies – private companies	Loss	There is evidence indicating the asset is credit impaired	Lifetime ECL – credit impaired	Lifetime ECL – credit impaired
Private sector – listed companies – private companies	Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written off	Amount is written off

* Less than HK\$1,000.

No allowance for ECL is made for amounts due from immediate holding company and non-controlling shareholders of subsidiaries and deposits for the year ended 31 December 2019 (2018: HK\$nil).

- For trade receivables, unbilled receivables and contract assets, the Group has applied the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL.

As part of the Group's credit risk management, the Group uses internal credit rating to assess the impairment for its customers in relation to its operation because these customers consist of a large number of small customers with common risk characteristics that are representative of the customers' abilities to pay all amounts due in accordance with the contractual terms. The following table provides information about the exposure to credit risk for trade receivables, unbilled receivables and contract assets which are assessed based on provision matrix as at 31 December 2019 within lifetime ECL (not credit impaired). Credit-impaired debtor with gross carrying amounts of HK\$7,879,000 as at 31 December 2019 is assessed individually (2018: HK\$7,879,000).

		99,252	8,425

The estimated loss rates are estimated based on internal credit ratings (taking into consideration of historical credit loss experience, average actual date of receipt, customers' background, listing status and size as groupings of various debtors) and are adjusted for forward-looking information that is available without undue cost or effort. The grouping is regularly reviewed by management to ensure relevant information about specific debtors is updated.

* The Group has made 100% allowance for ECL in respect of this credit-impaired debtor.

3. Bank balances

Credit risk on bank balances is limited because the counterparties are reputable banks with high credit ratings assigned by international credit agencies. The Group assessed 12-month ECL for bank balances by reference to information relating to probability of default and loss given default of the respective credit rating grades published by external credit rating agencies. Based on the average loss rates, the 12-month ECL on bank balances is considered to be insignificant.

Impairment allowance on HK\$nil was made on credit-impaired debtor during the year (2018: HK\$7,879,000).

(iii) Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

The following table details the Group's remaining contractual maturity for its financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay.

(iv) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

As the Group has no other significant interest-bearing assets or liabilities, the Group's income and operating cash flows are substantially independent of changes in market interest rates.

34. CAPITAL MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to owners of the Company through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of equity attributable to owners of the Company, comprising issued share capital and reserves including retained profits.

The directors of the Company review the capital structure on a regular basis. As part of this review, the directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through new share issues and raise of new borrowings.
