NOTES TO THE QUARTERLY CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three months ended 31 March 2019

1. GENERAL

The Company was incorporated in Cayman Islands on 16 September 2016 as an exempted company with limited liability. The registered office of the Company is P.O. Box 1350, Clifton House, 75 Fort Street, Grand Cayman, KY1-1108 Cayman Islands.

The Company is an investment holding company while its subsidiaries' principal businesses are provision of information technology ("IT") infrastructure solutions services, IT development solutions services and IT maintenance and support services.

2. BASIS OF PREPARATION AND PRESENTATION

The unaudited quarterly condensed consolidated financial statements for the three months ended 31 March 2019 has been prepared in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and the applicable disclosure provisions of the Rules Governing the Listing of Securities on GEM of The Stock Exchange of Hong Kong Limited (the "GEM Listing Rules"). The principal accounting policies used in preparing the unaudited quarterly condensed consolidated financial statements are consistent with those adopted in the preparation of the Group's annual financial statements for the year ended 31 December 2018.

The unaudited quarterly condensed consolidated financial statements have been prepared under the historical cost basis and presented in Hong Kong dollars ("HK\$"). All values are rounded to the nearest thousand except when otherwise indicated. The unaudited quarterly condensed consolidated financial statements have not been audited by the Company's auditor, but have been reviewed by the Company's audit committee.

3. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

New and Amendments to HKFRSs that are mandatorily effective for the current year

The Group has applied the following new and amendments to HKFRSs issued by HKICPA for the first time in the current year: -

HKFRS 16	Leases
HK(IFRIC)-Int 23	Uncertainty over Income Tax Treatments
Amendments to HKFRS 9	Prepayment Features with Negative Compensation
Amendments to HKAS 19	Plan Amendment, Curtailment or Settlement
Amendments to HKAS 28	Long-term interests in Associates and Joint Ventures
Amendments to HKFRSs	Annual Improvements to HKFRSs 2015–2017 Cycle

The accounting policies adopted in the preparation of the unaudited quarterly condensed consolidated financial statements are same as those applied in the preparation of the Group’s annual financial statements for the year ended 31 December 2018, except for the new and revised HKFRSs and interpretations issued by HKICPA that are first effective for the current accounting period of the Group. There has been no significant change to the accounting policy applied in these unaudited quarterly condensed consolidated financial statements for the period presented as a result of adoption of these amendments, except for the adoption of HKFRS 16 “Leases”.

HKFRS 16 Leases

The Group has adopted HKFRS 16 retrospectively from 1 January 2019, but has not restated comparatives for the 2018 reporting period, as permitted under the specific transitional provisions in the standard. The reclassifications and the adjustments arising from the new leasing rules are therefore recognised in the opening consolidated statement of financial position on 1 January 2019.

Before the adoption of HKFRS 16, commitments under operating leases for future periods were not recognised by the Group as liabilities. Operating lease expenses were recognised in the consolidated statement of comprehensive income over the lease period on a straight-line basis.

On adoption of HKFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as “operating leases” under the principles of HKAS 17 “Leases”. These liabilities were measured at the present value of the remaining lease payments, discounted using the Group’s incremental borrowing rate as of 1 January 2019. The weighted average Group’s incremental borrowing rate applied to the lease liabilities on 1 January 2019 was 4.12%.

Right-of-use assets are measured at their carrying amount as if HKFRS 16 had been applied since the commencement date, discounted using the Group's incremental borrowing rate at the date of initial application.

From 1 January 2019, leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

On transition of HKFRS 16, the Group recognised right-of-use assets and lease liabilities, with difference recognised in retained earnings on 1 January 2019. The impact of such on transition is summarised below:

Consolidated Statement of Financial Position

	As at 1 January 2019 HK\$'000
Increase in right-of-use assets	5,479
Decrease in trade and other payables and accruals	(563)
Increase in lease liabilities	6,162
Decrease in retained earnings	(120)

4. SEGMENT INFORMATION

The chief operating decision makers are identified as the executive directors of the Company. BUSINESS REVIEW AND OUTLOOK

For the three months ended 31 March 2019 ("Quarterly 2019"), the Group recorded a profit attributable to owners of the Company of approximately HK\$3.8 million as compared to the profit attributable to owners of the Company of approximately HK\$3.8 million for the three months ended 31 March 2018 ("Quarterly 2018"). No significant fluctuation was noted.

Provision of IT infrastructure solutions services

This segment provides IT infrastructure solutions services to our clients by advising them the hardware and/or software that their IT systems would require and procuring the relevant hardware and/or software. The revenue generated from this segment in Quarterly 2019 amounted to approximately HK\$25.1 million, representing approximately 48.6% of the total revenue for Quarterly 2019. The revenue derived from this segment decreased by approximately 14.3% from approximately HK\$29.3 million for Quarterly 2018 to approximately HK\$25.1 million for Quarterly 2019. The decrease was primarily due to decrease in total numbers and average project size of IT infrastructure solutions services projects undertaken in Quarterly 2019.

Provision of IT development solutions services

This segment provides IT development solutions services that generally include system analysis and design, software development and technology consultancy. The revenue generated from this segment accounted for approximately 37.0% of the total revenue for Quarterly 2019. The revenue from this segment increased by approximately 52.8% from approximately HK\$12.5 million for Quarterly 2018 to approximately HK\$19.1 million for Quarterly 2019, the increase was primarily due to the increase in total number of IT development solutions services projects undertaken and increase in average amount of revenue recognized per project in Quarterly 2019.

Provision of IT maintenance and support services

This segment provides IT maintenance and support services. The revenue generated from this segment amounted to approximately HK\$7.5 million, representing approximately 14.5% of the total revenue for Quarterly 2019. No significant fluctuation was noted.

PROSPECTS AND OUTLOOK

For Quarterly 2019, the Group maintained our target to record relatively stable revenue and profit, a number of factors could come into play that may affect our performance. Considering that the global business environment will still remain challenging. In the view of the uncertain business environment due to the risk of the US-China trade war which may exacerbate geopolitical tensions and lead to negative impacts on the global economy. The Group anticipates that it will continue to face various risks and uncertainties that may adversely affect its business and overall short-term performance. This will cause the Group to reduce orders and fulfilment. It will put pressure on our pricing terms and our profitability in the short term. We will closely monitor the impact of the macro issues on performance and will set our strategies cautiously to manage these factors with the aim to deliver the best possible results to our shareholders.

FINANCIAL REVIEW

Revenue

The Group's revenue for Quarterly 2019 amounted to approximately HK\$51.7 million, representing an increase of approximately HK\$2.4 million or 4.9% compared to Quarterly 2018 (2018: approximately HK\$49.3 million). The increase was attributable to increase in revenue generated from provision of IT development solutions services by approximately HK\$6.6 million; and was offset by decrease in provision of IT infrastructure solutions services by approximately HK\$4.2 million.

Gross profit and gross profit margin

The gross profit of the Group decreased by approximately 10.2% from approximately HK\$12.7 million for Quarterly 2018 to approximately HK\$11.4 million for Quarterly 2019 as the decrease was mainly attributable to the decrease in gross profit of IT infrastructure solutions services due to decrease in total numbers and average projects size of infrastructure solutions services projects undertaken in Quarterly 2019. The gross profit margin of the Group decreased from approximately 25.8% for Quarterly 2018 to approximately 22.0% for Quarterly 2019 as the decrease was mainly attributable to the completion of one project from technology, media, telecommunications sector with high gross profit, and increase in one new IT maintenance and support services projects associated with comparatively lower gross profit margin projects during Quarterly 2019.

Selling expenses

For Quarterly 2019, the Group's selling expenses amounted to approximately HK\$1.4 million, representing the increase of approximately HK\$0.2 million or 16.7% as compared to Quarterly 2018 of approximately HK\$1.2 million. Such increase was mainly attributed by the increase in average staff headcount in sales department and the increase in average staff salaries due to more senior staff for sales department recruited for Quarterly 2019.

Administrative and general expenses

The Group's administrative expenses for Quarterly 2019 amounted to approximately HK\$5.4 million, representing decrease of approximately HK\$1.1 million or 16.9% as compared to Quarterly 2018 (2018: approximately HK\$6.5 million). Such decrease was mainly attributed by the decrease in staff cost in administrative expenses by HK\$1.5 million due to decrease in number of senior staff in administrative and finance department for Quarterly 2019.

Profit and total comprehensive income for the period

The Group record profit by approximately HK\$3.9 million for Quarterly 2019, as compared to profit of approximately HK\$3.8 million for Quarterly 2018. It has noted no significant fluctuation for Quarterly 2019, as compared to that in Quarterly 2018.

We financed our operations primarily through cash generated from our operating activities. During Quarterly 2019, we did not have any bank borrowings. The Group did not have any credit facilities from banks as at 31 December 2018 and 31 March 2019, respectively. The Group's gearing ratio, which is calculated by total debt (defined as bank and other debts incurred not in the ordinary course of business) divided by total equity, was nil as at 31 March 2019 (31 December 2018: nil). We expect that our liquidity position would further be strengthened by using the cash generated from our operating activities and fund raising as a result of that the Shares were listed on the Stock Exchange on 16 July 2018. Going forward, we intend to use our capital for our operations and the expansion plans as stated in our Prospectus.

CORPORATE GOVERNANCE PRACTICES

The Company has adopted the code provisions of the Corporate Governance Code (the “CG Code”) as set out in Appendix 15 to the GEM Listing Rules and, in the opinion of the Board, the Company has complied with the CG Code for Quarterly 2019, save for the deviation from such code disclosed below.

The CG Code in Appendix 15 to the GEM Listing Rules provision A.2.1 provides that the roles of chairman and chief executive should be separate and should not be performed by the same individual. Mr. Yu Pak Lun Larry is the chairman and the chief executive officer of the Company. In view of Mr. Yu Pak Lun Larry is one of the co-founders of the Group and has been operating and managing the Group since 1998, the Board believes that it is in the best interest of the Group to have Mr. Yu Pak Lun Larry taking up both roles for effective management and business development. Therefore, the directors of the Company consider that the deviation from the CG Code provision A.2.1 is appropriate in such circumstance.

Under the CG Code provision A.1.8, the Company should arrange appropriate insurance cover in respect of legal action against its Directors. Currently, the Company does not have insurance cover for legal action against its Directors. Every Director is, subject to the provisions of the applicable laws, indemnified out of the assets of the Company against all costs, charges, expenses, losses and liabilities he/she may sustain or incur in or about the execution of his/her office or otherwise in relation thereto pursuant to the Articles of Association of the Company. However, as the risk management and internal control systems of our Group is effective and constantly under review, and as all the executive Directors and management are familiar with the operation of the Group and the information technology industry, the Board believes that the risk of the Directors being sued or getting involved in litigation in their capacity as Directors is relatively low, and hence the Board is of the view that the benefits of the insurance may not outweigh the cost. Therefore, the Board considers that the Directors' exposure to risk is manageable.

Save for the deviations as mentioned above, the Board is satisfied that the Company had complied with all the code provisions of the CG Code since the Listing Date up to the date of this report.

INTERESTS IN COMPETING BUSINESS

During the Quarterly 2019, the directors of the Company were not aware of any business or interest of the directors of the Company, the controlling shareholders of the Company and their respective close associates that had competed or might compete with the business of the Group and any other conflicts of interests which any such person had or might have with the Group.

INTERESTS OF COMPLIANCE ADVISER

In accordance with Rule 6A.19 of the GEM Listing Rules, the Company has appointed Cinda International Capital Limited ("Cinda") to be its compliance adviser. As at 31 March 2019, as notified by Cinda, save for the compliance adviser agreement entered into between the Company and Cinda dated 21 February 2018, neither Cinda nor any of its directors, employees or close associates had any interest in the securities of the Company.
